## Keeps Those Longer Pin/Drift Punches From Self-Destructing

We are constantly encouraging you to always use starting punches to break tight pins loose - then use a "drift" or pin-punch to drive the pin the rest of the way out. This saves bending pin punches, but much more importantly, it prevents fine guns from getting pin punch mars should the pin punch bend and slip - or - break, and scratch. To bring you the best possible Starter Punches, we have had special, Short Replaceable Pins made up to fit our famous Gunsmith's Replacement Punch Set Handles. Their regular use will definitely improve your production . . . and your professionalism!

# Starter Punch Set Safety Instructions

## Introduction

Thank you for choosing the Starter Punch Set by Brownells. This product is designed to assist in the safe and efficient removal of tight pins in various applications. To ensure your safety and the longevity of the product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the Starter Punch Set as intended. Misuse may lead to injury or damage to the tool.
- Ensure that the work area is clean and free from distractions. A tidy workspace reduces the risk of accidents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves to protect yourself from debris and sharp edges.
- Keep the Starter Punch Set out of reach of children and vulnerable individuals. This product is not a toy.
- Inspect the tool before each use to ensure it is in good working condition. Do not use if damaged.

## Specific Safety Precautions for Use

- Use starting punches to break tight pins loose before using a drift or pin punch to drive the pin out.
- Avoid using excessive force when driving pins to prevent bending or breaking the punch.
- If the punch slips, stop immediately to prevent scratches or damage to your workpiece.
- If you are unfamiliar with using punches, seek guidance or training before attempting to use the product.
- Be cautious of your hand placement when using the punch to avoid pinching or crushing injuries.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the workpiece is securely held in place.
- Select the appropriate size punch from the set based on the diameter of the pin you are working with.

### 2. Using the Starter Punch:

- Align the punch with the pin you wish to remove.
- Gently tap the punch with a hammer until the pin begins to move.
- Once the pin is loose, switch to a drift or pin punch to drive the pin out completely.

### 3. Replacement Pins:

- If a punch is worn or damaged, replace it with a new pin of the same size.
- Replacement pin sizes available:
  - .039" for 3/64" diameter pins
  - .060" for 1/16" diameter pins
  - .091" for 3/32" diameter pins

## Disposal Instructions

- Dispose of any damaged or wornout punches and replacement pins in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.
