

SHOTGUN SIGHT KIT "A" - BROWNELLS SHOTGUN SIGHT REFILL SIGHTS #2 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

Replacement Shotgun Beads

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

Brownells Shotgun Sight Kit "A" Safety Instruction Guide

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "A." This guide provides essential safety instructions and usage information to ensure the safe and effective use of your shotgun sights. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear when handling firearms and related accessories.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation may lead to misalignment or detachment during use.
 - Sharp edges on the sights can cause injury.
- **Instructions for Avoiding Hazards:**
 - Always check the fit of the sights on your firearm before use.
 - Handle the sights carefully to avoid cuts or abrasions.
 - Ensure that the firearm is unloaded before installing or adjusting the sights.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation (e.g., screwdriver, tap, and drill if needed).

2. Installation:

- Select the appropriate shank size (356 or 648) based on your firearm.
- If redrilling is necessary, use a drill to create a new hole according to the 648 standard.
- Thread the sight onto the shank until it is securely in place.
- Adjust the sight for proper alignment with the barrel.

3. Usage:

- When using the shotgun, ensure that the sights are securely attached.
- Regularly check the sights for tightness and alignment before shooting.
- If you experience any issues with the sights, stop using them immediately and consult a professional gunsmith.

Disposal Instructions

- Dispose of any damaged or unusable sights in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options or hazardous waste disposal facilities.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the official manufacturer's contact channels. Ensure you keep your purchase receipt and any relevant documentation for warranty and support purposes.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Brownells Shotgun Sight Kit "A." Always prioritize safety and seek assistance if you have any questions or concerns regarding the product.
