## **Replacement Shotgun Beads**

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

# Safety Instruction Guide for Brownells Shotgun Sight Kit "A"

## Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "A". This product is designed to enhance your shooting experience with highquality replacement sights. To ensure your safety and the safety of others, please read this safety instruction guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle firearms and their accessories with care and respect.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of damage or wear before use.
- Be aware of your surroundings when using firearms to avoid accidents.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye and ear protection, when using firearms.
- Ensure that the firearm is unloaded before installing or adjusting the sights.
- Follow the manufacturer's instructions for installation and adjustment closely.
- Do not modify the product in any way, as this may compromise its safety and effectiveness.
- If you experience any difficulty during installation or usage, seek assistance from a qualified gunsmith.
- Be cautious of the potential for injury from sharp edges or small parts during installation.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools, including a screwdriver and any specific tools recommended by the manufacturer.

### 2. Installation:

- Select the appropriate shank size (356 or 648) based on your firearm's specifications.
- Thread the sight onto the firearm's sight hole, ensuring a snug fit.
- Adjust the sight to the desired position and secure it in place.

### 3. Usage:

- Familiarize yourself with the sighting system before heading to the range.
- Practice using the sights in a controlled environment to ensure proper alignment and accuracy.
- Regularly check the sights for tightness and alignment before each use.

## Disposal Instructions

- Dispose of any damaged or broken sights in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling the materials if possible, following local recycling guidelines.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Brownells Shotgun Sight Kit "A", please refer to the manufacturer's contact information provided with the product packaging.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority, and we appreciate your commitment to responsible firearm use. Enjoy your shooting experience with the Brownells Shotgun Sight Kit "A"!
