## **Replacement Shotgun Beads**

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

# SHOTGUN SIGHT KIT "A" Safety Instruction Guide

## Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "A". This product is designed to provide you with highquality replacement sights for shotguns. To ensure your safety and the longevity of the product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always handle the shotgun sight kit with care to avoid injury.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the sights for any signs of damage or wear before use.
- If you encounter any defects or issues, do not use the product and contact customer support.

## Specific Safety Precautions for Use

- **Avoid Eye Injury:** Always wear safety glasses when installing or adjusting sights to protect your eyes from debris.
- **Sharp Edges:** Be cautious of sharp edges on the sights. Handle them carefully to avoid cuts.
- **Proper Fit:** Ensure that the sight fits securely on the shotgun barrel before use to prevent it from coming loose during operation.
- **Installation Safety:** When drilling or tapping new holes, ensure that the firearm is unloaded and pointed in a safe direction.
- **Vulnerable Groups:** Keep the kit and its components away from children and individuals who may not understand the risks associated with firearms.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the shotgun is unloaded and pointed in a safe direction.
- Gather necessary tools including a drill, tap, and safety glasses.

### 2. Choosing the Right Sight:

- Select the appropriate shank size (356 or 648) based on your shotgun's specifications.
- Choose the bead size (0.067, 0.130, or 0.175) and color (Gold or White) that best suits your needs.

### 3. Installation:

- If necessary, drill a new hole using the 648 drill bit for compatibility with the standard screw size.
- Tap the hole to create threads for the sight.
- Carefully screw the sight into place, ensuring it is secure and aligned properly.

### 4. Usage:

- Once installed, test the sight by aiming the shotgun to ensure proper alignment.
- Make any necessary adjustments before using the shotgun for shooting.

### 5. PostInstallation:

- Regularly check the sights for tightness and stability before each use.
- Replace any worn or damaged sights immediately.

## **Disposal Instructions**

- Dispose of any damaged or worn sights in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, check for local recycling programs or hazardous waste disposal options.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Brownells Shotgun Sight Kit "A", please refer to the product packaging for contact information. You can also visit the manufacturer's website for additional support and resources.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with your Brownells Shotgun Sight Kit "A". Always prioritize safety and proper handling to enjoy the best performance from your product. Thank you for your purchase.
