

SHOTGUN SIGHT KIT "A" - SHOTGUN SIGHT REFILL SIGHTS #6 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

Replacement Shotgun Beads

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

Safety Instruction Guide for Brownells Shotgun Sight Kit "A"

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "A." This kit is designed to provide you with highquality replacement shotgun sights. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide. Your safety and satisfaction are our top priorities.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Keep this product out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the product for any signs of wear or damage before use.
- In case of any malfunction or unusual behavior, discontinue use immediately and consult a professional.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when installing or using the shotgun sights.
- Handle all tools and equipment with care to avoid injury.
- Ensure that the firearm is unloaded and pointed in a safe direction before installing the sights.
- Be aware of your surroundings and ensure that no unauthorized persons are nearby when using the shotgun.
- Follow the manufacturer's guidelines for installation to avoid improper fitting that could lead to accidents.
- If you are unsure about the installation process, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Gather the necessary tools, including a drill, tap, and any other equipment required for installation.
- Ensure that the shotgun is unloaded and in a safe working environment.

2. Selecting the Right Sight:

- Choose from the various sight options in the kit based on your firearm's specifications.
- The kit includes two shank sizes (356 and 648), three bead sizes (.067, .130, and .175), and two colors (Gold and White).

3. Installation:

- If your shotgun does not have a threaded hole, carefully drill a new hole using the appropriate drill bit for the selected shank size.
- Tap the hole to create threads that will accommodate the sight shank.
- Screw the chosen sight into the threaded hole until it is secure, ensuring that it is aligned correctly.

4. Final Inspection:

- After installation, inspect the sight to ensure it is firmly attached and properly aligned.
- Test the firearm in a safe environment to ensure that the sights are functioning as intended.

5. Usage:

- Practice safe handling of your firearm at all times.
- Regularly check the sights for any signs of wear or loosening and make adjustments as necessary.

Disposal Instructions

- Dispose of any unused or damaged sights in accordance with local regulations.
- Do not discard in regular household waste. Instead, consider recycling options for metal components where applicable.

Contact Information for Further Support

For any inquiries regarding the Brownells Shotgun Sight Kit "A," including safety concerns or product support, please refer to the contact details provided on the packaging or the manufacturer's website. It is important to reach out to authorized personnel for assistance.

By following these guidelines, you can ensure a safe and enjoyable experience with your Brownells Shotgun Sight Kit "A." Thank you for your attention to safety and for choosing our product.
