

SHOTGUN SIGHT KIT "A" - SHOTGUN SIGHT REFILL SIGHTS #7 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

Replacement Shotgun Beads

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

Safety Instruction Guide for Brownells Shotgun Sight Kit “A”

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit “A.” This kit contains a variety of topquality replacement shotgun sights designed for easy installation and use. Your safety and satisfaction are our top priorities. This guide provides essential safety instructions, general guidelines, and specific precautions to ensure the safe use of this product.

General Safety Guidelines

- Ensure that all components are inspected for defects before use.
- Always follow the manufacturer's instructions for installation and use.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Regularly check for updates regarding recalls or safety notices on the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper installation may lead to inaccurate shooting or damage to the firearm.
 - Sharp edges on the sights can cause cuts or injuries during handling.
 - Small parts may pose a choking hazard for children.
- **Avoiding Hazards:**
 - Always wear protective eyewear when installing or adjusting sights.
 - Handle the sights with care to avoid injury from sharp edges.
 - Ensure that small parts are stored securely and out of reach of children.
- **AgeSpecific Warnings:**
 - This product is not intended for use by individuals under the age of 18 without adult supervision.
 - Ensure that children are supervised at all times when in proximity to the product.

Instructions for Installation and Usage

- **Installation:**
 1. Select the appropriate sight based on your firearm's specifications.
 2. Ensure the firearm is unloaded and pointed in a safe direction.
 3. Use the correct tools for installation, such as a drill and tap for the shank sizes 356 or 648.
 4. Carefully thread the sight into the designated hole until securely fitted.
 5. Check the alignment and ensure that the sight is stable before use.
- **Usage:**
 - Regularly inspect the sights for wear or damage before each use.
 - Adjust the sights as necessary to ensure optimal accuracy.
 - Store the kit in a dry, safe place to prevent damage to the components.

Disposal Instructions

- Dispose of any damaged or unusable sights in accordance with local regulations.
- Do not dispose of the product in general household waste.
- Check for recycling options for materials such as aluminum and brass.

Contact Information for Further Support

For any inquiries regarding the safety and use of the Brownells Shotgun Sight Kit “A,” please refer to the manufacturer's customer support resources. Ensure you have the product details available for reference.

Thank you for your attention to these safety guidelines. We hope you enjoy using your Brownells Shotgun Sight Kit “A” safely and effectively.
