

# SHOTGUN SIGHT KIT "A" - SHOTGUN SIGHT REFILL SIGHTS #8 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

## Replacement Shotgun Beads

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

# Brownells Shotgun Sight Kit "A" Safety Instructions

## Introduction

Thank you for purchasing the Brownells Shotgun Sight Kit "A". This guide provides important safety instructions and information to ensure the safe use of the product. Please read this guide carefully before using the kit.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as a shotgun sight replacement.
- Always inspect the sights and components for any damage before use.
- Keep the kit out of reach of children and vulnerable individuals.
- Use the product in a wellventilated area and follow all local laws and regulations regarding firearm accessories.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Handle all tools with care when installing or adjusting the sights.
- Wear appropriate safety gear, such as safety glasses, when working with firearms.
- Avoid using excessive force when attaching the sights to prevent damage to the firearm or the sights.
- Ensure that the firearm is unloaded before installing or adjusting the sights.
- Do not modify the sights or components in any way that could compromise safety.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a drill and tap set compatible with the 648 and 356 shank sizes.
- Ensure that you have the correct bead size and color for your firearm.

### 2. Installation Steps

- Ensure the firearm is unloaded and pointed in a safe direction.
- If there is no existing sight hole, drill a new hole using the appropriate drill bit for the 648 size.
- Tap the hole to create threads for the sight.
- Choose the appropriate shank size (356 or 648) and thread it into the sight hole.
- Attach the chosen bead (Gold or White) to the shank, ensuring it is secured tightly.
- Check the alignment of the sight and make any necessary adjustments.

### 3. Usage

- Once installed, test the sights by aiming at a target to ensure proper alignment and visibility.
- Regularly inspect the sights for any signs of wear or damage, especially after heavy use.

## Disposal Instructions

- Dispose of any damaged or worn sights and components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, consider recycling options if available.

## **Contact Information for Further Support**

For any questions or concerns regarding the Brownells Shotgun Sight Kit "A", please consult your local authorized dealer or visit the manufacturer's website for further assistance.

Thank you for choosing Brownells. Your safety and satisfaction are our top priorities.
