## **Replacement Shotgun Beads**

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

# Safety Instruction Guide for SHOTGUN SIGHT KIT "A"

## Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "A." This product is designed to provide highquality replacement shotgun sights for various firearms. Your safety is our priority, and we encourage you to read this guide carefully to ensure the safe and effective use of this product.

## General Safety Guidelines

- Ensure that the product is used only by individuals who are familiar with firearms and shotgun sight installation.
- Always follow the manufacturer's instructions and guidelines for installation and use.
- Store the product in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the sights for any signs of wear or damage before use.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use caution when handling sharp tools or components during installation.
- Ensure that all tools used for installation are in good condition and appropriate for the task.
- Do not use the sights if they show signs of damage or if the threads are stripped.
- Always wear safety glasses when working with firearms or during installation.
- Keep the work area clean and free from distractions to avoid accidents.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including a drill, tap, and any other equipment needed for installation.
- Ensure that the firearm is unloaded and on a stable surface.

### 2. Selecting the Right Sight:

- Choose the appropriate shank size (356 or 648) based on the firearm specifications.
- Select the desired bead size (.067, .130, or .175) and color (Gold or White).

### 3. Installation Steps:

- If a new hole is required, drill a hole in the barrel according to the chosen shank size.
- Tap the hole to create threads for the sight.
- Align the sight with the threaded hole and gently screw it in until secure. Ensure it is fitted straight to avoid misalignment.
- Check that the sight is firmly in place before using the firearm.

### 4. PostInstallation:

- Inspect the installation to confirm that the sight is secure and properly aligned.
- Clean the area and dispose of any debris or leftover materials safely.

## **Disposal Instructions**

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If the product becomes damaged or unusable, dispose of it in accordance with local regulations for hazardous waste, if applicable.
- Ensure that the product is out of reach of children during disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Brownells Shotgun Sight Kit "A," please refer to the contact information provided on the product packaging or visit the manufacturer's website for more resources.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells Shotgun Sight Kit "A." Thank you for prioritizing safety and responsible use.
