[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

## **Replacement Shotgun Beads**

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

# Safety Instruction Guide for SHOTGUN SIGHT KIT "A"

## Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "A". This guide provides important safety information to ensure the safe use and handling of your shotgun sights. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Always handle shotgun sights with care to avoid injury.
- Ensure that all tools and equipment used during installation are in good condition.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the sights for wear or damage before use.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about any recalls or safety alerts through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the shotgun is unloaded before installing or adjusting sights.
- Use appropriate protective eyewear when working with tools or during installation.
- Avoid using excessive force when installing sights to prevent damage.
- Do not attempt to modify or alter the sights in any way.
- Be aware of your surroundings while handling firearms and ensure a safe environment.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a drill and tap set suitable for 356 or 648 shank sizes.
- Ensure you have a clean, welllit workspace.

### 2. Installation Steps

- Identify the correct shank size for your shotgun. The kit includes 356 and 648 sizes.
- If there is no existing hole, select the appropriate drill bit for the shank size and carefully drill a hole into the barrel.
- Tap the hole using the corresponding tap to create threads for the sight.
- Select the desired sight from the kit, ensuring it matches your requirements (shank size, bead size, and color).
- Carefully screw the sight into the tapped hole, ensuring a snug fit without overtightening.
- Once installed, check the alignment of the sight before use.

### 3. Usage

- Use the shotgun only in a safe and controlled environment.
- Regularly check the sights for stability and alignment before each use.
- If you notice any damage or misalignment, do not use the shotgun and consult a professional gunsmith.

## **Disposal Instructions**

- Dispose of any damaged or unusable sights in accordance with local regulations.
- Do not dispose of sights in regular household waste. Check for local recycling programs that accept metal components.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Brownells Shotgun Sight Kit "A", please refer to the manufacturer's contact information provided with your product. Ensure you have the product details ready for efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells Shotgun Sight Kit "A". Thank you for your attention to safety. Enjoy your shooting experience!
