## Three Finer-Than-Fine Cake Polishes For Gorgeous Mirror Finishes On Steel, Aluminum And More

Good Old Five-Fifty-Five as the boys call it. This is the secret that master polishers use to give that mirror finish to the gun after Polish-O-Ray"! 500. For the brightest possible finishes, we recommend hard felt, followed by loose muslin for each grit as you progress through them. You can stop with any of the three grits when the desired level of finish is achieved. Suggest you experiment to find the combo and sequence you like best in your shop. For the absolutely most gorgeous finish you've ever seen, follow 555 Gray with this. Often used to buff plated surfaces, this grade takes out 555 Gray marks leaving a mirror finish. Does a nice job on aluminum too.

## Attributes

# Safety Instruction Guide for NO. 555 WHITE POLISH

## Introduction

Welcome to the safety instruction guide for NO. 555 WHITE POLISH, also known as 555 WHITE POLISHORAY. This guide provides essential safety information to ensure the safe use of this product. Please read it carefully before using the polish to achieve the best results while minimizing risks.

## General Safety Guidelines

- Ensure that NO. 555 WHITE POLISH is used in a wellventilated area to avoid inhalation of dust and fumes.
- Keep the product out of reach of children and pets to prevent accidental ingestion or exposure.
- Always wear appropriate personal protective equipment (PPE), including gloves and safety goggles, when handling the polish.
- Store the product in a cool, dry place away from direct sunlight and heat sources to maintain its effectiveness and prevent degradation.
- In case of an accident or if you feel unwell after using the product, seek medical attention immediately.

## Specific Safety Precautions for Use

- Before use, check the packaging for any signs of damage or tampering. Do not use the product if the packaging is compromised.
- Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water and seek medical advice if irritation persists.
- Do not ingest the product. If swallowed, do not induce vomiting; seek medical help immediately.
- Be cautious when using the polish on surfaces that may become slippery when applied.
- Do not mix NO. 555 WHITE POLISH with other chemicals or substances unless explicitly stated in the product instructions.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the surface to be polished is clean and free of dirt or debris.
- Select the appropriate grit for your polishing needs (hard felt, loose muslin).

### 2. Application:

- Apply a small amount of NO. 555 WHITE POLISH to the polishing pad or cloth.
- Begin polishing the surface using moderate pressure, moving in a circular motion.
- Progress through the different grits as needed, stopping when the desired finish is achieved.

### 3. PostApplication:

- After polishing, clean the area to remove any residue from the polish.
- Dispose of any used materials according to local regulations.

## Disposal Instructions

- Dispose of the product and its packaging in accordance with local waste disposal regulations.
- Do not pour the product down the drain or into water bodies.
- If the product is no longer usable, consult your local waste management authority for proper disposal

methods.

## **Contact Information for Further Support**
