Polish For Gorgeous Mirror Finishes On Steel, Aluminum And More

"Good Old Five-Fifty-Five" as the boys call it. This is the "secret" that master polishers use to give that mirror finish to the gun after Polish-O-Ray® 500. For the brightest possible finishes, we recommend hard felt, followed by loose muslin for each grit as you progress through them. You can stop with any of the three grits when the desired level of finish is achieved. Suggest you experiment to find the combo and sequence you like best in your shop. The coarsest of the three, so you can move to the 555 family sooner. Great as a Coloring polish for aluminum after the final sanding steps. Follow with Gray on steel, skip to White on aluminum.

NO. 555 BLACK POLISH Safety Instruction Guide

Introduction

Thank you for choosing NO. 555 BLACK POLISH, also known as PolishORay. This product is designed to provide a highquality mirror finish for your polishing needs. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- Always read the product label and safety data sheet before use.
- Keep the product out of reach of children and pets.
- Use the product only for its intended purpose.
- Ensure proper ventilation when using the product to avoid inhalation of dust or fumes.
- Wear appropriate personal protective equipment (PPE), such as gloves, goggles, and a dust mask.
- Store the product in a cool, dry place, away from direct sunlight and heat sources.
- Dispose of any waste material in accordance with local regulations.

Specific Safety Precautions for Use

- Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water and seek medical attention if irritation persists.
- Do not ingest the product. If swallowed, seek medical advice immediately.
- Use only in wellventilated areas to minimize inhalation risks.
- Do not mix with other chemicals unless specified by the manufacturer.
- Keep the container tightly closed when not in use to prevent contamination and spills.
- Be cautious of static electricity when handling the product, especially in dry environments.

Instructions for Installation and Usage

1. Preparation:

- Ensure the surface you intend to polish is clean and free from debris.
- Select the appropriate grit level based on the desired finish—coarse, medium, or fine.

2. Application:

- Start with the coarsest grit to remove imperfections.
- Apply NO. 555 BLACK POLISH using a hard felt pad, following the manufacturer's recommendations.
- Progress through the grits, switching to a loose muslin pad for finer finishes.
- Experiment with combinations of grits to achieve your preferred finish.

3. Finishing:

- For aluminum surfaces, follow with Gray polish after NO. 555 BLACK POLISH, and then use White polish for the final touch.
- For steel surfaces, use Gray polish after NO. 555 BLACK POLISH.

4. Cleanup:

- Clean the tools and workspace after use to prevent crosscontamination.
- Dispose of any used materials in accordance with local regulations.

Disposal Instructions

- Dispose of the product and any waste materials in accordance with local environmental regulations.
- Do not pour unused product down the drain or into the environment.
- Check with local authorities for specific disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the use of NO. 555 BLACK POLISH, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

Thank you for prioritizing safety while using NO. 555 BLACK POLISH. Your adherence to these guidelines helps ensure a safe and effective polishing experience.
