

THE "JOINTER" - JOINTER TOOL WITH HANDLE

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Hand Checkering Tools](#) > [Checkering Jointers](#)

Designed by MONTY KENNEDY Saves The Day When A Line Starts Astray!

A tool that isn't often used - until it is needed - and then it is the most necessary checkering tool you can own! Its main purpose is to straighten out checkering lines which have gone astray and to make layout and other lines really straight. There isn't a checker alive, pro or rank novice, who, at one time or another, hasn't had a line suddenly head for left field & either due to the wood's grain, a wood density change, or a false move. Straightening out such a line - without a Jointer Tool - could easily drive you right up the wall! Anyone who has checkered will instantly recognize the great value of this tool. The beginner (and pro, too!) should read Monty Kennedy's Checkering and Carving of Gunstocks and Bob Sconce's fine checkering articles in Gunsmith Kinks® and then include a Jointer with his checkering assortment.

Safety Instruction Guide for THE "JOINTER" JOINTER TOOL WITH HANDLE

Introduction

Thank you for choosing the "Jointer" Jointer Tool with Handle. This tool is essential for anyone involved in checkering, helping to straighten out checkering lines and ensuring precision. To ensure your safety and the proper use of this product, please read the following safety instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of damage or wear before use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Store the tool in a dry place away from moisture to prevent rusting.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the tool on stable surfaces to avoid slipping or accidents.
- Avoid using excessive force when operating the tool to prevent injury.
- Ensure that your hands and fingers are kept clear of the cutting area during use.
- Do not use the tool if you are fatigued or under the influence of substances that may impair your judgment.
- Follow all instructions for sharpening the tool to avoid injuries.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials and tools before starting.
- Ensure that your workspace is clean and organized.

2. Using the Jointer Tool:

- Hold the tool firmly by the handle.
- Position the tool at the desired angle against the checkering lines.
- Apply gentle pressure while moving the tool along the line to straighten it.
- Check the alignment frequently to ensure accuracy.

3. Sharpening the Tool:

- Use a 60° 3square file for reshaping.
- Follow the manufacturer's guidelines for sharpening to maintain the tool's effectiveness.

4. PostUse Care:

- Clean the tool after each use to remove any debris or moisture.
- Store the tool in a protective case or designated storage area to prevent damage.

Disposal Instructions

- Dispose of the tool responsibly at a designated waste disposal facility.
- Do not dispose of the tool in regular household waste.
- Follow local regulations for the disposal of metal tools.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the "Jointer" Jointer Tool with Handle, please refer to the manufacturer's contact information provided in the product packaging or manual.

By following these guidelines, you will ensure a safe and effective experience with your "Jointer" Jointer Tool. Thank you for your attention to these important safety instructions.
