

ENGINE TURNING KIT - STANDARD ENGINE TURNING KIT

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Jewelling Tools & Accessories](#)

Save & Get Everything You Need

Two money saving kits that have everything needed to produce an attractive, jeweled finish on hammers, triggers, rifle bolts, etc. Select the kit that best meets your needs and save the time and cost of buying individual pieces. The Standard Kit contains two of our E/T Brush sets and a container of 120 grit silicon carbide abrasive; the Deluxe Kit adds our E/T Brush Holder Assembly that gives just the right amount of brush pressure against the work piece. Use the Standard Kit if you primarily work on flat surfaces. The Deluxe Kit produces a great finish on flat or curved surfaces. To get the best results, the kits should be used in a drill press.

ENGINE TURNING KIT STANDARD Safety Instruction Guide

Introduction

Thank you for choosing the ENGINE TURNING KIT STANDARD. This product is designed to help you achieve an attractive, jeweled finish on various surfaces. To ensure your safety and the effective use of this product, please read and follow the safety guidelines and instructions provided in this guide.

General Safety Guidelines

- Ensure that the product is used in accordance with the instructions provided.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the kit.
- Keep the product out of reach of children and vulnerable individuals.
- Do not use the kit in wet or damp conditions to prevent electrical hazards.
- Regularly inspect the kit for any signs of wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the kit in a wellventilated area to avoid inhaling dust or fumes.
- Use the Standard Kit primarily on flat surfaces; the Deluxe Kit is recommended for curved surfaces.
- Ensure that the drill press is securely mounted and stable before beginning work.
- Do not exceed the recommended speed settings on your drill press while using the kit.
- Avoid direct contact with the abrasive materials to prevent skin irritation.
- Dispose of any used abrasive materials in accordance with local regulations.

Instructions for Installation and Usage

1. Preparation:

- Gather all components from the kit: twelve E/T brushes, 24 Orings, two 4" lengths of heat shrink tubing, one 4 oz. container of 120 grit Silicon Carbide Abrasive, a 1 oz. bottle of DoDrill, and complete instructions.
- Ensure that your drill press is clean and free of debris.

2. Installation:

- Install the E/T brushes onto the drill press according to the provided instructions.
- If using the Deluxe Kit, attach the E/T Brush Holder Assembly securely to ensure proper brush pressure.
- Check that all components are firmly in place before proceeding.

3. Usage:

- Apply the DoDrill to the workpiece as needed to enhance the cutting action of the brushes.
- Begin the drill press at a low speed and gradually increase to the recommended setting.
- Move the workpiece uniformly against the brushes to achieve an even finish.
- Periodically check for wear on the brushes and replace as necessary.

4. PostUse Care:

- Clean the brushes and other components after use to maintain their effectiveness.
- Store the kit in a dry, cool place away from direct sunlight.

Disposal Instructions

- Dispose of any unused or damaged components of the kit in accordance with local waste management regulations.
- Do not dispose of abrasive materials in regular household waste.
- Check local guidelines for the proper disposal of hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the ENGINE TURNING KIT STANDARD, please contact the relevant support services in your region. Ensure that you have the model number and details of your purchase available for reference.

Thank you for your attention to these safety instructions. Enjoy the benefits of your ENGINE TURNING KIT STANDARD while ensuring a safe working environment!
