

1911 STOCK SCREWS - 1911 STANDARD STOCK SCREWS STAINLESS 48 PACK

[Handgun Parts](#) > [Frame Parts](#) > [Frame Hardware](#) > [Frame Screws](#)

Made to Original Factory Specs For Easy Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and reblue the critter or put on another set of grips, chances are that at least one of the stock screws will need replacing. Standard Stock Screws - Nicely made and finished, these special-sized, blued screws are packed in sets of 4 Screws. Stainless Steel (S/S) Stock Screws - Look "right" on stainless steel and nickel-plated guns.

Safety Instruction Guide for 1911 Stock Screws

Introduction

Thank you for purchasing the 1911 Standard Stock Screws. This guide provides essential safety information and instructions for the safe use, installation, and disposal of the product. Please read this guide carefully to ensure your safety and the proper functioning of your firearm.

General Safety Guidelines

- Ensure that all safety measures are followed when handling firearms and related accessories.
- Always keep firearms unloaded when not in use.
- Store stock screws and firearms in a secure location, out of reach of children and unauthorized users.
- Regularly inspect stock screws for wear and damage before installation.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation of stock screws may lead to malfunction of the firearm.
 - Damaged or worn screws can compromise the integrity of the firearm.
- **Avoiding Hazards:**
 - Always use the correct tools specified for installation.
 - Do not attempt to modify or alter stock screws.
 - Ensure that the firearm is in a safe condition and pointed in a safe direction during any maintenance.
- **Age Restrictions:**
 - This product is intended for use by adults only. Keep away from children.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded and safe to handle.
- Gather the necessary tools: a screwdriver that fits the stock screws.

2. Removing Old Screws:

- Carefully unscrew the existing stock screws using the appropriate screwdriver.
- Place the removed screws in a safe location for disposal.

3. Installing New Screws:

- Align the new stock screws with the holes in the firearm's grip.
- Handtighten the screws to ensure they are properly seated.
- Use the screwdriver to securely tighten the screws, being careful not to overtighten, which may strip the threads.

4. Final Inspection:

- After installation, inspect the screws to ensure they are secure and properly aligned.
- Check the functionality of the firearm to ensure everything operates smoothly.

Disposal Instructions

- Dispose of old or damaged screws responsibly.
- Follow local regulations for disposal of metal products.
- Do not throw screws in regular household waste.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the 1911 Stock Screws, please reach out to your local retailer or manufacturer for assistance.

Thank you for choosing our product. Your safety is our priority.
