# Safety Instruction Guide for 90° MUZZLE FACING CUTTERS .750" DIAMETER

## Introduction

Thank you for choosing the 90° Muzzle Facing Cutters .750" Diameter. This product is designed to faceoff and squareup barrel muzzles, ensuring precision and safety in your firearm maintenance tasks. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Ensure safe use of the cutter by following all instructions provided in this guide.
- Be aware of potential risks associated with using cutting tools, including cuts, injuries, and damage to the firearm.
- Always handle the cutter with care and keep it out of reach of children and vulnerable individuals.
- Use the cutter only for its intended purpose as specified in this guide.
- Regularly check the product for any signs of wear or damage before use.
- If you encounter any problems or have safety concerns, do not hesitate to seek assistance.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the cutter.
- Ensure that the work area is clean, dry, and welllit to avoid accidents.
- Do not use the cutter if you are tired, distracted, or under the influence of substances that impair your judgment.
- Keep hands and other body parts away from the cutting area to prevent injury.
- Ensure that the muzzle pilot is securely in place before using the cutter.
- Do not exceed the recommended cutting depth to avoid damaging the tool or the firearm.
- Always follow the recommended techniques for facingoff and squaringup barrel muzzles.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Clean the muzzle area to remove any debris or obstructions.

### 2. Installing the Muzzle Pilot:

- Select the appropriate interchangeable muzzle pilot.
- Insert the pilot into the cutter, ensuring it is securely locked in place.

### 3. Using the Cutter:

- Position the cutter at the muzzle of the firearm.
- Apply even pressure and rotate the cutter in a clockwise direction.
- Check the progress frequently to ensure the muzzle is being squared properly.
- Stop if you notice any unusual resistance or if the cutter becomes dull.

### 4. Finishing Up:

- Once the desired finish is achieved, carefully remove the cutter from the muzzle.

- Clean the cutter and muzzle pilot after use to maintain their condition.

## **Disposal Instructions**

- Dispose of the cutter and any damaged parts in accordance with local regulations.
- Do not dispose of the cutter in regular household waste if it is damaged or no longer functional.
- Consider recycling options for metal components where applicable.

## **Contact Information for Further Support**
