

45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT - 45° CUTTER & STEEL PILOT FITS .20 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot

Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. This guide provides important safety information and instructions to ensure the safe and effective use of the product. Please read this guide thoroughly before using the cutter.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a chamfering tool.
- Keep the cutter and pilots out of reach of children and vulnerable individuals.
- Inspect the cutter and pilots before each use for any signs of damage or wear.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, while using the cutter.
- Do not use the cutter if any part is damaged or missing.
- Follow all local regulations regarding the use and disposal of tools and materials.

Specific Safety Precautions for Use

- **Cutting Edge Safety:** The cutting edges of the chamfering cutter are sharp. Handle with care to avoid cuts or injury.
- **Proper Alignment:** Ensure the pilot is correctly aligned with the cutter to avoid accidental slips or miscuts.
- **Work Area:** Use the cutter in a welllit and clutterfree workspace to minimize the risk of accidents.
- **Stability:** Secure the workpiece properly before using the cutter to prevent movement during operation.
- **No Distractions:** Avoid distractions while using the cutter to maintain focus and control.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials.
- Ensure you have the appropriate pilot for the caliber you are working with.

2. Installation:

- Insert the desired pilot into the cutter securely.
- Check that the pilot is properly seated and aligned.

3. Using the Cutter:

- Position the cutter against the edge of the workpiece.
- Apply gentle pressure while rotating the cutter in a clockwise direction.
- Maintain a steady and controlled motion to achieve a clean chamfer.

4. PostUse Care:

- Clean the cutter and pilots after each use to remove any debris or residue.
- Store the cutter and pilots in the provided polypropylene box to protect from damage.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Recycle materials where possible, especially metal components, to minimize environmental impact.

Contact Information for Further Support

For additional support or inquiries regarding the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure the safe and effective use of your 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. Thank you for prioritizing safety in your use of this product.
