

45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT - 45° CUTTER & STEEL PILOT FITS 6.5MM/.264 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot

Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. This tool is designed to provide a clean bullet exit and facilitate quick reloads for revolver cylinder chambers. To ensure safe and effective use, please read this safety instruction guide thoroughly.

General Safety Guidelines

- Follow all instructions carefully to avoid injury or damage.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use for any signs of damage or wear.
- Use the tool only for its intended purpose as described in this guide.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves during use.
- Store the tool in a safe, dry place when not in use.

Specific Safety Precautions for Use

- Ensure the area is welllit and free from distractions before using the cutter.
- Always use the cutter with the appropriate pilot size for the caliber being chamfered.
- Do not apply excessive force when using the cutter; let the tool do the work.
- Avoid using the cutter on materials other than those specified in the product description.
- If the cutter becomes stuck, do not force it; instead, carefully remove it and inspect for any obstructions.
- Dispose of any damaged parts responsibly and safely.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary components: the chamfering cutter, handle, and pilot.
- Ensure your workspace is clean and organized.

2. Installation:

- Attach the pilot to the chamfering cutter securely.
- Ensure the pilot is the correct size for the caliber you are working with.

3. Using the Cutter:

- Hold the cutter firmly by the handle.
- Position the cutter at a 45° angle to the muzzle or cylinder mouth.
- Apply gentle pressure and rotate the cutter to chamfer the edge.
- Continue until you achieve the desired chamfer.

4. PostUse Care:

- Clean the cutter and pilot after each use to remove debris.
- Store all components in the provided polypropylene box to prevent damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the tool in regular household waste if it is damaged or no longer usable.
- Consider recycling materials where applicable.

Contact Information for Further Support

For any safety inquiries, please consult your local EU contact point. Regularly check for updates on product recalls and safety information on the EU's Safety Gate platform.

By following these guidelines, you will ensure safe and effective use of the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. Thank you for your attention to safety.
