

## **45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT - 45° CUTTER & STEEL PILOT FITS .35 MUZZLE**

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

### **Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers**

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an \* is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instruction Guide for 45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT

## Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. This product is designed to help you achieve clean bullet exits and efficiently chamfer revolver cylinder chamber mouths. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the cutter.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the cutter and pilots for any signs of damage or wear before use.
- Follow all local regulations regarding the use of tools and equipment.

## Specific Safety Precautions for Use

- *Sharp Edges:* The cutter has sharp edges that can cause cuts. Handle with care and avoid direct contact with the cutting edges.
- *Proper Alignment:* Ensure that the cutter and pilot are properly aligned before use to prevent accidents or damage.
- *Secure Workpiece:* Always secure the workpiece being chamfered to prevent it from moving during the operation.
- *Work Environment:* Use the cutter in a welllit and organized workspace to minimize risks of accidents.
- *Avoid Distractions:* Stay focused while using the tool and avoid distractions that may lead to accidents.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the cutter, handle, and pilot.
- Ensure that your workspace is clean and free of any obstructions.

### 2. Installing the Pilot:

- Select the appropriate pilot for your caliber.
- Insert the pilot into the cutter until it is securely locked in place.

### 3. Using the Cutter:

- Attach the handle to the cutter.
- Position the cutter at a 45° angle to the workpiece.
- Apply gentle pressure while rotating the cutter to chamfer the edges.
- Do not force the cutter; let it do the work to avoid damaging the tool or the workpiece.

### 4. PostUse Cleaning:

- After use, clean the cutter and pilots with a soft cloth to remove any debris.

- Store the cutter and pilots in the provided polypropylene box to protect them from damage.

## **Disposal Instructions**

- Dispose of the product and any damaged parts in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, consider recycling options for metal components.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the product, please refer to the provided contact details in the product packaging or visit the manufacturer's website.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot.
