

# **45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT - BROWNELLS 45° CUTTER & STEEL PILOT FITS .38/.357 CYLINDER**

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

## **Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers**

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an \* is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instruction Guide for 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot

## Introduction

Thank you for purchasing the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the cutter.

## General Safety Guidelines

- Ensure that the cutter is used only for its intended purpose as described in the product specifications.
- Always use protective gear, including safety glasses and gloves, when operating the cutter to prevent injury.
- Keep the cutter and its components out of reach of children and vulnerable individuals.
- Inspect the cutter and its components before each use for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding the use of cutting tools.

## Specific Safety Precautions for Use

- Handle the cutter with care to avoid cuts or injuries.
- Always ensure that the cutter is securely attached to the handle before use.
- Use the cutter only on materials specified in the product description. Avoid using it on materials that may cause unexpected hazards.
- Do not attempt to modify or repair the cutter yourself. Contact a qualified professional for repairs.
- Store the cutter in a safe place when not in use, preferably in the provided polypropylene box.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and materials before starting.
- Ensure your workspace is clean and welllit.

### 2. Installation

- Select the appropriate pilot for your caliber from the interchangeable options.
- Insert the pilot into the cutter and secure it properly according to the product specifications.

### 3. Usage

- Position the cutter at a 45° angle to the material being chamfered.
- Apply steady pressure while rotating the cutter to achieve a clean chamfer.
- Avoid excessive force, as this may damage the cutter or the material.
- After use, clean the cutter and pilot to remove any debris.

## Disposal Instructions

- Dispose of the cutter and its components in accordance with local waste disposal regulations.
- If the cutter is damaged beyond repair, ensure it is disposed of safely to prevent injury to others.

## Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot, please refer to the manufacturer's contact details provided with your product.

## Conclusion

By following these safety instructions, you can ensure the safe and effective use of your 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. Always prioritize safety and refer to this guide whenever needed. Thank you for your attention to these important safety measures.
