

45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT - BROWNELLS 45° CUTTER & STEEL PILOT FITS .45 CYLINDER*

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instructions for 45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT

Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot by Brownells. This tool is designed to chamfer revolver cylinder chamber mouths and break the edges of rifling for clean bullet exits. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the cutter in a welllit and clean environment.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the cutter and its components before each use for any signs of damage or wear.
- Use personal protective equipment (PPE) such as safety glasses and gloves while operating the cutter.
- Ensure that the cutter is securely attached to the handle before use.
- Do not use the cutter for purposes other than its intended use.
- Follow all local regulations regarding the use and disposal of tools.

Specific Safety Precautions for Use

- Handle the cutter with care to avoid cuts or injuries.
- Ensure that the workpiece is securely held in place to prevent movement during operation.
- Avoid applying excessive force while using the cutter; let the tool do the work.
- Do not operate the cutter while under the influence of drugs or alcohol.
- If the cutter becomes dull or damaged, replace it immediately.
- Always store the cutter in its original polypropylene box when not in use to prevent damage and accidents.

Instructions for Installation and Usage

1. Installation of the Cutter:

- Remove the cutter and handle from the polypropylene box.
- Insert the cutter into the handle, ensuring it is properly aligned and secured.
- Check that the cutter is firmly in place before proceeding.

2. Using the Cutter:

- Position the revolver cylinder chamber or barrel securely on a stable surface.
- Hold the handle firmly and apply gentle pressure as you chamfer the edges.
- Rotate the cutter smoothly and evenly to achieve a consistent chamfer.
- Check the chamfer depth periodically to ensure it meets your specifications.

3. PostUse:

- Clean the cutter and handle after each use to remove any debris or residue.
- Store the cutter and handle in the polypropylene box to protect them from damage.
- If you have purchased additional pilots, follow the same installation instructions for each pilot.

Disposal Instructions

- Dispose of the cutter and its components in accordance with local regulations.
- Do not dispose of the cutter in regular household waste if it is damaged or broken.
- Consider recycling the metal components where facilities are available.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the EU-based contact point provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your 45° Muzzle/Cylinder Chamfering Cutter & Steel Pilot. Always prioritize safety and consult the guidelines regularly to maintain best practices. Thank you for your attention to these important safety measures.
