

45° MUZZLE/CYLINDER CHAMFERING CUTTER & STEEL PILOT - 45° CUTTER & STEEL PILOT FITS .45 ACP-2 CYLINDER*

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an * is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

- Avoid Distractions:** Focus on the task at hand and avoid distractions while using the cutter.
- Follow Instructions:** Adhere to the instructions provided in this guide for safe operation.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials.
- Ensure you have the correct pilot for your caliber.

2. Installing the Cutter

- Select the appropriate pilot for your caliber.
- Insert the pilot into the cutter. Ensure it is securely fitted.
- Attach the handle to the cutter if not already attached.

3. Using the Cutter

- Position the cutter at a 45° angle to the workpiece.
- Apply gentle pressure and rotate the cutter in a clockwise direction.
- Chamfer the edge until a clean finish is achieved.
- Do not apply excessive force, as this may damage the cutter or workpiece.

4. PostUse Care

- Clean the cutter and pilot after use to prevent rust and damage.
- Store the cutter in the provided polypropylene box to protect it from moisture and physical damage.

Disposal Instructions

- Dispose of any damaged or wornout cutters and pilots in accordance with local regulations.
- Do not dispose of in regular household waste. Check for local recycling programs that accept metal tools.
- Ensure that all components are disposed of safely to prevent injury to others.
