

45 DEGREE CHAMFER CUTTERS - 45 1/2" CHAMFERING CUTTER ONLY

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Cutters](#)

45 DEGREE CHAMFER CUTTERS A damaged or poorly-cut muzzle can really hurt accuracy; sharp edges on revolver cylinder chamber mouths can cause rounds to hang up going into the cylinder - a real problem when using speedloaders. Cure both problems with this cutter. SPECIFICATIONS: Material: Steel Length: 3-1/4" Diameter: 1/2" or 5/8" 45 Degrees

Safety Instruction Guide for 45° Chamfer Cutters

Introduction

Thank you for purchasing the 45° Chamfer Cutters by BROWNELLS. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before using the cutter to avoid accidents and ensure optimal performance.

General Safety Guidelines

- Always handle the cutter with care to prevent injury.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the cutter.
- Ensure your workspace is clean and organized to avoid accidents.
- Keep the cutter out of reach of children and vulnerable individuals.
- Regularly inspect the cutter for any signs of damage or wear before use.
- Do not use the cutter if it is damaged or malfunctioning.
- Follow all local regulations and guidelines concerning the use of cutting tools.

Specific Safety Precautions for Use

- **Cutting Surface:** Always use the cutter on a stable and secure surface.
- **Body Position:** Keep your hands and body clear of the cutting path to avoid injury.
- **Force Control:** Apply consistent and controlled pressure while cutting to prevent slipping.
- **Material Compatibility:** Ensure that the material being cut is suitable for the cutter and does not exceed its specifications.
- **DistractionFree Environment:** Avoid distractions while using the cutter to maintain focus and control.
- **Emergency Procedures:** Familiarize yourself with emergency procedures in case of an accident.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials and tools before starting.
- Ensure that the cutter is clean and free from debris.

2. Installation:

- Securely attach the cutter to the appropriate tool or machine as per the manufacturer's instructions.
- Verify that the cutter is properly aligned and tightened to avoid accidents during use.

3. Usage:

- Position the material securely on the cutting surface.
- Align the cutter with the intended cutting line.
- Begin cutting by applying steady pressure, allowing the cutter to do the work.
- If the cutter becomes dull or ineffective, stop using it and replace it as necessary.

4. PostUse:

- After use, clean the cutter thoroughly to remove any material residue.
- Store the cutter in a safe place, away from children and pets.

Disposal Instructions

- Dispose of the cutter in accordance with local regulations regarding cutting tools.
- If the cutter is damaged beyond repair, ensure that it is disposed of safely to prevent injury to others.

Contact Information for Further Support

For safety inquiries or to report unsafe products, please contact the relevant EU-based authority or visit the EU's Safety Gate platform for the latest updates and recall information.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and effective experience with your 45° Chamfer Cutters.
