

# 45° TiN COATED CYLINDER CHAMFERING CUTTER - BROWNELLS 45 TIN COATED CYLINDER CHAMFERING 5/8" DIAMETER CUTTER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Chamfering Cutters](#)

## Durable TiN Coating Cuts Chamfers In Toughest Metal

High-speed steel chamfer cutter makes perfect 45° angle cuts for easier cylinder filling with speed loaders. TiN coating on the cutting surface allows for smooth, chatter-free cuts and longer cutting life even on tough metals such as scandium. Also great for chamfering the muzzle on chrome-lined barrels. Available in 5/8" size.

# Safety Instruction Guide for 45° TiN Coated Cylinder Chamfering Cutter

## Introduction

Thank you for choosing the 45° TiN Coated Cylinder Chamfering Cutter from Brownells. This guide provides essential safety instructions, usage guidelines, and disposal information to ensure safe and effective use of the product. Please read this guide carefully before using the cutter.

## General Safety Guidelines

- Always use the cutter in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free from hazards before starting work.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against metal shavings and debris.
- Keep the cutter out of reach of children and unauthorized persons.
- Do not use the cutter for any purpose other than intended.

## Specific Safety Precautions for Use

- Inspect the cutter before each use to ensure it is in good condition. Do not use if damaged.
- Ensure the cutter is securely attached to the tool handle before use.
- Use the cutter at the recommended speed to avoid overheating and damaging the tool.
- Avoid applying excessive force while cutting; let the cutter do the work.
- Be aware of your surroundings and ensure no one is in close proximity while using the cutter.
- If you experience any discomfort or notice any unusual sounds during use, stop immediately and inspect the cutter.

## Instructions for Installation and Usage

### 1. Installation:

- Select the appropriate tool handle and pilot for your cutter.
- Securely attach the cutter to the tool handle, ensuring it is tightly fastened.
- Check that the cutter is aligned correctly before proceeding.

### 2. Usage:

- Position the cylinder securely in a stable work area.
- Align the cutter at a 45° angle to the edge of the cylinder.
- Apply light pressure and begin cutting, maintaining a steady speed.
- After completing the cut, carefully remove the cutter from the workpiece.
- Clean the cutter after use to prevent buildup of metal shavings.

## Disposal Instructions

- Dispose of the cutter responsibly. Check local regulations for proper disposal of metal tools.
- If the cutter is damaged or no longer usable, do not throw it in regular waste. Instead, take it to a designated recycling center where metal tools are accepted.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the 45° TiN Coated Cylinder Chamfering Cutter, please refer to the manufacturer's contact details provided with the product packaging.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure safe and effective use of the 45° TiN Coated Cylinder Chamfering Cutter. Always prioritize safety and proper handling to achieve the best results. Thank you for your attention to these important safety measures.
