

STEEL ONE CALIBER SETS - STEEL ONE CALIBER SET FITS .338 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Square Up & Chamfer Rifle & Handgun Muzzles - Steel Bore Pilot

Set includes: one, 90° facing cutter to square a muzzle after shortening, or repair damage; one, 45° chamfering cutter to break the edges of the rifling for a clean bullet exit or chamfer a revolver cylinder mouth for quick reloads; plus one handle that fits either cutter and one steel bore pilot. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instructions for STEEL ONE CALIBER SETS

Introduction

Thank you for choosing the STEEL ONE CALIBER SET designed for precision muzzle work on .338 caliber firearms. This guide provides important safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product before each use for any signs of damage or wear.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when using the cutters.
- Do not use the product if you are under the influence of drugs or alcohol.
- Store the product in a secure location when not in use to prevent unauthorized access.

Specific Safety Precautions for Use

- **Cutting Tools:** The cutters are sharp and can cause injury. Handle with care.
- **Alignment:** Ensure that the pilot is properly aligned with the cutter to avoid accidents.
- **Work Area:** Use the product in a welllit and clutterfree environment to minimize risks.
- **Distractions:** Avoid distractions while using the product to maintain focus and precision.
- **Overexertion:** Do not overexert yourself. Take breaks as needed to maintain control and accuracy.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and protective equipment.
- Ensure the work area is clean and welllit.

2. Setting Up the Cutter:

- Select the appropriate cutter (90° facing cutter or 45° chamfering cutter) based on your task.
- Attach the cutter to the handle securely.

3. Using the Cutter:

- Insert the steel bore pilot into the muzzle.
- Align the cutter with the pilot.
- Apply even pressure while rotating the cutter to achieve a clean cut or chamfer.
- Check frequently to ensure proper alignment and depth.

4. PostUse Care:

- Clean the cutters and pilot after use to remove debris or residue.
- Store the product in its polypropylene box to protect it from damage.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Consider recycling materials where applicable, especially metal components.

- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For safety inquiries, product support, or to report unsafe products, please refer to the EU's Safety Gate platform for assistance and updates on product recalls.

By following these safety instructions, you can ensure a safe and effective experience while using the STEEL ONE CALIBER SET. Thank you for your attention to safety.
