

HIGH SPEED STEEL TAPS - REIFF & NESTOR COMPANY HIGH SPEED STEEL PLUG TAP 7/32"-40 THREAD

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Taps & Dies](#) > [Taps](#)

HIGH SPEED STEEL TAPS The Reiff & Nestor Company High Speed Steel Taps are precision-engineered tools designed for gunsmiths and firearm enthusiasts to create or repair internal threads in firearm components. Crafted from high-speed steel, these taps offer superior durability and maintain their hardness even under high temperatures, making them ideal for continuous use. These taps are available in various thread sizes and styles, including bottom, taper and plug taps, which are essential for threading close to the bottom of blind holes. The high-speed steel construction ensures longevity and precise threading, accommodating a wide range of gunsmithing applications. Specifications: Material: High-speed steel Tap Styles: Bottom Tap Thread Sizes Available: 8-40 3-56 6-40 7/32-40 Customer Insights: Users of the Reiff & Nestor Company High Speed Steel Taps appreciate their precision and durability. The high-speed steel construction allows for efficient threading without compromising the tool's integrity, making these taps a reliable choice for both professional gunsmiths and hobbyists. Incorporating the Reiff & Nestor Company High Speed Steel Taps into your gunsmithing toolkit ensures reliable and accurate threading, enhancing the quality and longevity of firearm components.

Attributes

Safety Instruction Guide for High Speed Steel Taps

Introduction

Thank you for choosing the Reiff & Nestor Company High Speed Steel Taps. These precisionengineered tools are designed for gunsmiths and firearm enthusiasts to create or repair internal threads in firearm components. This safety instruction guide is intended to ensure the safe use of these taps and to provide important information about their handling, installation, and disposal.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the taps.
- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when using the taps.
- Keep the taps out of reach of children and unauthorized individuals.
- Inspect the taps for any damage before use. Do not use damaged taps.
- Store the taps in a dry and secure location to prevent accidents.
- Be aware of your surroundings and avoid distractions while using the taps.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Sharp edges: The taps have sharp cutting edges that can cause cuts or puncture wounds.
 - Material handling: Improper handling can lead to injury or damage to the taps.
- **Instructions for Avoiding Hazards:**
 - Always handle taps with care and avoid direct contact with the cutting edges.
 - Use the taps only for their intended purpose—creating or repairing threads in firearm components.
 - Do not apply excessive force when using the taps to prevent breakage and potential injury.
 - Ensure that the workpiece is securely clamped to prevent movement during use.
 - Follow proper threading techniques to avoid damaging the taps or the workpiece.

Instructions for Installation and Usage

- Before beginning any work, ensure that you have the right tap size for your application.
- Use a compatible tap wrench to hold the tap securely.
- **StepbyStep Usage Instructions:**
 1. Prepare the workpiece by ensuring it is clean and free from debris.
 2. Mark the location where the thread will be created or repaired.
 3. Drill a pilot hole if necessary, using the appropriate drill bit size for the tap.
 4. Insert the tap into the tap wrench and align it with the pilot hole.
 5. Turn the wrench slowly and steadily, applying light pressure to start the threading.
 6. After a few turns, back the tap out slightly to clear any chips.
 7. Continue threading until the desired depth is reached.
 8. Remove the tap and clean the threads to remove any debris.

Disposal Instructions

- When the taps reach the end of their useful life, dispose of them responsibly.
- Follow local regulations for the disposal of metal tools.
- Do not dispose of taps in regular household waste.
- Consider recycling options available in your area.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the contact information provided with your product packaging. It is important to have an EUbased contact for any safetyrelated questions or concerns.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and effective experience with your Reiff & Nestor Company High Speed Steel Taps.
