# Safety Instruction Guide for 1911 Stock Taps and Bushing Tap

## Introduction

Thank you for purchasing the 1911 Stock Taps and Bushing Tap. This guide provides essential safety instructions and usage information to ensure safe and effective operation. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure safe use of the 1911 Stock Taps and Bushing Tap by following these guidelines:
  - Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves.
  - Keep the work area clean and welllit to prevent accidents.
  - Store tools and taps in a safe place, out of reach of children and pets.
  - Do not use the taps for purposes other than their intended use.
  - Always inspect the tools for damage before use. Do not use damaged tools.
  - Follow all manufacturer instructions and guidelines for use.

## Specific Safety Precautions for Use

- Before using the 1911 Stock Taps and Bushing Tap, consider the following precautions:
  - Ensure that the tap is compatible with the material you are working on.
  - Use cutting oil to reduce friction and heat during tapping.
  - Avoid excessive force when using the taps to prevent breakage.
  - If you experience resistance while tapping, stop and check for misalignment or blockage.
  - Do not attempt to modify or alter the taps in any way.
  - Keep hands and fingers away from the cutting area to avoid injury.

## Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the 1911 Stock Taps and Bushing Tap:
  1. **Preparation:**
    - Gather all necessary tools and materials, including the tap, cutting oil, and a suitable drill.
  2. **Drilling:**
    - Drill a pilot hole according to the specifications for the tap size you are using.
    - Ensure the drill is set to the appropriate speed for the material.
  3. **Tapping:**
    - Apply cutting oil to the tap before inserting it into the pilot hole.
    - Insert the tap into the hole, aligning it perpendicular to the surface.
    - Turn the tap clockwise, applying light pressure. If resistance is felt, back the tap out slightly and then continue.
    - Once the tap has reached the desired depth, carefully remove it by turning it counterclockwise.
  4. **Cleanup:**
    - Clean the tap and store it in a safe location after use.
    - Dispose of any metal shavings and debris safely.

## Disposal Instructions

- Dispose of the 1911 Stock Taps and Bushing Tap responsibly:
  - Follow local regulations for the disposal of metal tools and materials.

- Do not throw tools in regular household waste.
- Consider recycling options for metal components.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the 1911 Stock Taps and Bushing Tap, please refer to the manufacturer's contact points as indicated on the product packaging or documentation.

By adhering to these safety instructions, you can ensure a safe and effective experience with your 1911 Stock Taps and Bushing Tap. Thank you for your attention to safety and for choosing our product.
