## Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. # SHOTGUN BARREL POLISHING FLEX HONE® 10 GAUGE FINE FLEX HONE Safety Instructions

## Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® 10 GAUGE FINE FLEX HONE. This product is designed to clean and polish shotgun barrels effectively. To ensure your safety and the proper use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in the product specifications.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the Flex Hone.
- Keep the product out of reach of children and unauthorized users.
- Regularly check the product for wear and tear. Do not use if damaged.
- Store the product in a dry, cool place when not in use to prevent deterioration.

## Specific Safety Precautions for Use

- Use only Flex Hone® oil with this product. Other oils may damage the abrasive "balls" and void the warranty.
- Do not exceed the maximum speed of 750 RPM when using the Flex Hone.
- Avoid applying excessive pressure during use, as this may lead to uneven polishing and potential injury.
- Always ensure the drill is unplugged when changing the hone or performing maintenance.
- Be cautious of sharp edges and debris that may be present during the honing process.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including a variable speed electric drill, Flex Hone® oil, and cleaning patches.
- Ensure your working area is clean and welllit.

### 2. Installation:

- Insert the Flex Hone into the chuck of the variable speed electric drill securely.
- Make sure the hone is properly aligned and tightened to prevent slippage during use.

### 3. Application:

- Wet the hone with Flex Hone® oil before starting.
- Insert the hone into the barrel from the breech end if possible.
- Start the drill at a low speed and gradually increase to the desired RPM, ensuring that the hone is making contact with the bore.
- Move the hone in and out of the barrel smoothly while allowing the slurry of abrasive and oil to develop.
- Periodically check for tight spots and spend extra time honing these areas for an even finish.

### 4. PostUse:

- Once the honing process is complete, remove the hone and run a clean patch through the barrel to

- remove any remaining slurry.
- Clean the Flex Hone according to the manufacturer's instructions after use.

## **Disposal Instructions**

- Dispose of used Flex Hone® oil and any wornout hones in accordance with local regulations for hazardous waste.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the product, please contact the manufacturer or your local distributor. Ensure you have the product details available for quicker assistance.

By following these safety instructions, you will ensure a safe and effective experience while using the SHOTGUN BARREL POLISHING FLEX HONE® 10 GAUGE FINE FLEX HONE. Thank you for your attention to safety!
