Silicon Carbide Abrasive Balls For Flawless "Inside" Polishing On Revolvers & Semi- Auto Pistols

BROWNELLS CYLINDER POLISHING SYSTEM The Brownells Cylinder Polishing System is a specialized tool designed to smooth and polish rough or scored revolver chambers, enhancing extraction efficiency and overall firearm performance. By eliminating imperfections within the cylinder, this system ensures a friction-free surface, thereby reducing the likelihood of extraction issues during operation. **Description and Features:** This polishing system utilizes medium and fine grit silicon carbide abrasives embedded in twisted steel shafts, providing effective material removal and a polished finish. The hones are 3 inches in length, making them suitable for various revolver calibers, including .32, .38/.357, .41, .44, .45 ACP, and .45 Colt. Additionally, the system can be employed to remove machine marks on semi-automatic pistol spring "ways," resulting in smoother hammer falls and improved cycling. For optimal performance and longevity of the hones, it is recommended to use them with Flex-Hone oil. **Specifications:** Abrasive Material: Silicon carbide Grit Options: Medium and fine Shaft Material: Twisted steel Hone Length: 3 inches Compatible Calibers: .32, .38/.357, .41, .44, .45 ACP, .45 Colt Customer Insights: Customers of the Brownells Cylinder Polishing System commend its effectiveness in resolving extraction problems by providing a smooth, polished chamber surface. The ease of use and quick results are frequently highlighted, with many noting significant improvements in firearm performance after application. The system's versatility in accommodating various calibers and its ability to enhance semi-automatic pistol operation by smoothing spring "ways" are also appreciated. Incorporating the Brownells Cylinder Polishing System into your gunsmithing toolkit ensures efficient and thorough polishing of revolver chambers and semi-automatic pistol components, leading to enhanced reliability and performance of your firearms.

Attributes

- Name: [POLISHING HONE MEDIUM COURSE 38/357 CYLINDER GRAY](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080608138
- Mfr. No.: 00899
- Color: Gray
- Length: 3"
- Make: Universal Handguns
- Material: Steel
- Model: -
- Model Number: 38/357 Medium
- Delivery weight: 0.091kg
- Shipping height: 10mm
- Shipping width: 76mm
- Shipping length: 150mm
- UPC: 050806019102

Brownell's Cylinder Polishing System Safety Instructions

Introduction

Thank you for choosing the Brownell's Cylinder Polishing System. This guide provides important safety information and instructions for the safe use of this product. Please read this manual carefully to ensure proper handling and maintenance of your polishing system.

General Safety Guidelines

- Always use the polishing system in a wellventilated area to avoid inhalation of dust particles.
- Wear appropriate personal protective equipment (PPE), including safety goggles and gloves, to protect against dust and debris.
- Keep the polishing system out of reach of children and pets to prevent accidental injury.
- Ensure that the polishing system is used only for its intended purpose as described in this manual.
- Regularly inspect the polishing system for any signs of wear or damage before use. Do not use if any components are damaged.

Specific Safety Precautions for Use

- Do not exceed the recommended speed when using the polishing hones to avoid overheating and potential damage.
- Avoid applying excessive pressure while polishing; let the tool do the work to prevent damage to the cylinder.
- Ensure that the polishing hones are securely attached to the shaft before use.
- Do not use the polishing system on materials other than those specified in the product description.
- If you experience any unusual vibrations or noises during operation, stop using the system immediately and inspect for issues.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the Brownell's Cylinder Polishing System, FlexHone oil, and personal protective equipment.
- Ensure that the area is clean and free from obstructions.

2. Installation:

- Attach the desired polishing hone to the twisted steel shaft securely.
- If necessary, apply a small amount of FlexHone oil to the hone to enhance performance.

3. Usage:

- Insert the polishing hone into the revolver chamber carefully.
- Begin polishing at a slow speed, gradually increasing as needed while maintaining control.
- Move the hone in and out of the chamber smoothly to ensure even polishing.
- After polishing, clean the chamber thoroughly to remove any debris or dust.

4. PostUse Care:

- Clean the polishing hones and shafts after each use to maintain their effectiveness.

- Store the polishing system in a dry place, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any worn or damaged polishing hones in accordance with local regulations.
- Do not dispose of the product in household waste. Check with local authorities for proper disposal methods for abrasive materials.

Contact Information for Further Support

For any safety inquiries or support regarding the Brownell's Cylinder Polishing System, please refer to the manufacturer's contact details provided with the product packaging.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the Brownell's Cylinder Polishing System. Thank you for your attention to safety, and enjoy enhanced firearm performance with your polishing system.
