## **Silicon Carbide Abrasive Balls For Flawless "Inside" Polishing On Revolvers & Semi- Auto Pistols**

**BROWNELLS CYLINDER POLISHING SYSTEM** The Brownells Cylinder Polishing System is a specialized tool designed to smooth and polish rough or scored revolver chambers, enhancing extraction efficiency and overall firearm performance. By eliminating imperfections within the cylinder, this system ensures a friction-free surface, thereby reducing the likelihood of extraction issues during operation. **Description and Features:** This polishing system utilizes medium and fine grit silicon carbide abrasives embedded in twisted steel shafts, providing effective material removal and a polished finish. The hones are 3 inches in length, making them suitable for various revolver calibers, including .32, .38/.357, .41, .44, .45 ACP, and .45 Colt. Additionally, the system can be employed to remove machine marks on semi-automatic pistol spring "ways," resulting in smoother hammer falls and improved cycling. For optimal performance and longevity of the hones, it is recommended to use them with Flex-Hone oil. **Specifications:** Abrasive Material: Silicon carbide Grit Options: Medium and fine Shaft Material: Twisted steel Hone Length: 3 inches Compatible Calibers: .32, .38/.357, .41, .44, .45 ACP, .45 Colt Customer Insights: Customers of the Brownells Cylinder Polishing System commend its effectiveness in resolving extraction problems by providing a smooth, polished chamber surface. The ease of use and quick results are frequently highlighted, with many noting significant improvements in firearm performance after application. The system's versatility in accommodating various calibers and its ability to enhance semi-automatic pistol operation by smoothing spring "ways" are also appreciated. Incorporating the Brownells Cylinder Polishing System into your gunsmithing toolkit ensures efficient and thorough polishing of revolver chambers and semi-automatic pistol components, leading to enhanced reliability and performance of your firearms.

## **Attributes**

- Name: [POLISHING HONE MEDIUM COURSE .44 CYLINDER GRAY](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080608144
- Mfr. No.: 00903
- Color: Gray
- Length: 3"
- Make: Universal Handguns
- Material: Steel
- Model: -
- Model Number: 44 Medium
- Delivery weight: 0.091kg
- Shipping height: 13mm
- Shipping width: 84mm
- Shipping length: 147mm
- UPC: 050806019119

# Safety Instruction Guide for Brownell's Cylinder Polishing System

## Introduction

Thank you for choosing the Brownell's Cylinder Polishing System. This product is designed to enhance the performance of your firearms by smoothing and polishing revolver chambers. To ensure safe and effective use of this product, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always use personal protective equipment (PPE) such as safety goggles and gloves when using the polishing system.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe product conditions or accidents to relevant authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Avoid direct contact with the abrasive materials to prevent skin irritation or injury.
- Do not use the polishing system on firearms that are loaded or have ammunition present.
- Ensure that the firearm is completely disassembled and cleaned before using the polishing system.
- Use the polishing system in a wellventilated area to avoid inhaling any dust or particles generated during use.
- Do not exceed recommended usage times to prevent overheating and potential damage to the hones.
- Follow the manufacturer's recommendations for the use of FlexHone oil to maintain the longevity of the hones.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the Brownell's Cylinder Polishing System, FlexHone oil, safety goggles, and gloves.
- Ensure your workspace is clean and wellventilated.

### 2. Disassemble the Firearm:

- Ensure the firearm is unloaded and disassemble it according to the manufacturer's instructions.
- Remove the cylinder from the revolver.

### 3. Apply FlexHone Oil:

- Apply a few drops of FlexHone oil to the polishing hone to reduce friction and enhance the polishing effect.

### 4. Polishing Process:

- Insert the polishing hone into the revolver chamber.
- Rotate the hone gently while applying light pressure to ensure even contact with the chamber walls.

- Continue polishing for the recommended time, typically a few minutes, depending on the level of roughness.

#### **5. Inspection:**

- After polishing, inspect the chamber for a smooth finish.
- Wipe away any excess oil and debris with a clean cloth.

#### **6. Reassemble the Firearm:**

- Once polishing is complete, reassemble the firearm according to the manufacturer's instructions.
- Conduct a safety check to ensure the firearm is functioning correctly.

## **Disposal Instructions**

- Dispose of any used abrasives, oils, or materials in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, check for local recycling programs or hazardous waste disposal facilities.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Brownell's Cylinder Polishing System, please refer to the manufacturer's website or customer support resources.

By following these safety instructions, you can ensure a safe and effective experience with the Brownell's Cylinder Polishing System. Always prioritize safety and consult the product documentation for further information.
