Silicon Carbide Abrasive Balls For Flawless "Inside" Polishing On Revolvers & Semi- Auto Pistols

BROWNELLS CYLINDER POLISHING SYSTEM The Brownells Cylinder Polishing System is a specialized tool designed to smooth and polish rough or scored revolver chambers, enhancing extraction efficiency and overall firearm performance. By eliminating imperfections within the cylinder, this system ensures a friction-free surface, thereby reducing the likelihood of extraction issues during operation. **Description and Features:** This polishing system utilizes medium and fine grit silicon carbide abrasives embedded in twisted steel shafts, providing effective material removal and a polished finish. The hones are 3 inches in length, making them suitable for various revolver calibers, including .32, .38/.357, .41, .44, .45 ACP, and .45 Colt. Additionally, the system can be employed to remove machine marks on semi-automatic pistol spring "ways," resulting in smoother hammer falls and improved cycling. For optimal performance and longevity of the hones, it is recommended to use them with Flex-Hone oil. **Specifications:** Abrasive Material: Silicon carbide Grit Options: Medium and fine Shaft Material: Twisted steel Hone Length: 3 inches Compatible Calibers: .32, .38/.357, .41, .44, .45 ACP, .45 Colt Customer Insights: Customers of the Brownells Cylinder Polishing System commend its effectiveness in resolving extraction problems by providing a smooth, polished chamber surface. The ease of use and quick results are frequently highlighted, with many noting significant improvements in firearm performance after application. The system's versatility in accommodating various calibers and its ability to enhance semi-automatic pistol operation by smoothing spring "ways" are also appreciated. Incorporating the Brownells Cylinder Polishing System into your gunsmithing toolkit ensures efficient and thorough polishing of revolver chambers and semi-automatic pistol components, leading to enhanced reliability and performance of your firearms.

Attributes

- Name: [POLISHING HONE FINE COURSE 32 CYLINDER GRAY](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080608232
- Mfr. No.:
- Color: Gray
- Length: 3"
- Make: Universal Handguns
- Material: Steel
- Model: -
- Model Number: 32 Fine
- Delivery weight: 0.005kg
- Shipping height: 8mm
- Shipping width: 79mm
- Shipping length: 150mm
- UPC: 050806019164

Brownell's Cylinder Polishing System Safety Instructions

Introduction

Thank you for choosing the Brownell's Cylinder Polishing System. This guide provides essential safety instructions to ensure the safe and effective use of the polishing system. Please read this manual carefully before using the product to avoid potential hazards and to enhance your overall experience.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is polishing revolver chambers and semiautomatic pistol components.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling the polishing system.
- Keep the polishing system out of reach of children and vulnerable individuals to prevent accidental injury.
- Inspect the polishing hones before each use for any signs of damage or wear. Do not use damaged hones.
- Store the polishing system in a dry and secure location when not in use.
- Follow all local regulations regarding the disposal of materials used with the polishing system.

Specific Safety Precautions for Use

- Do not exceed the recommended usage time to prevent overheating of the hones.
- Always apply FlexHone oil to the hones before use to ensure optimal performance and to reduce friction.
- Use the polishing system in a wellventilated area to avoid inhaling dust or debris generated during polishing.
- Avoid using the polishing system on any surfaces that are not intended for polishing, as this may cause damage.
- Do not force the hones into the cylinder; allow the tool to do the work to avoid injury or damage.
- If you experience any discomfort or adverse reactions while using the product, discontinue use immediately and seek medical advice if necessary.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the Brownell's Cylinder Polishing System, FlexHone oil, safety goggles, and gloves.
- Ensure that the area is clean and free from any obstructions.

2. Application of FlexHone Oil:

- Apply a small amount of FlexHone oil to the polishing hones. Ensure even coverage.

3. Polishing Process:

- Insert the polishing hone into the cylinder chamber carefully.
- Turn on the drill or polishing tool at a low speed.
- Gently move the hone in and out of the cylinder chamber, allowing it to polish the surface without excessive force.
- Continue the process for the recommended duration, typically a few seconds per chamber, checking for desired smoothness.

4. PostUse Care:

- After polishing, clean the hones with a soft brush to remove any debris.
- Store the polishing system in its designated case or a secure location.

Disposal Instructions

- Dispose of any used polishing materials, including the hones and any contaminated FlexHone oil, in accordance with local hazardous waste disposal regulations.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the Brownell's Cylinder Polishing System, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective experience with the Brownell's Cylinder Polishing System. Thank you for your attention to these important safety guidelines.
