BROWNELL'S CYLINDER POLISHING SYSTEM - POLISHING HONE FINE COURSE .45 ACP CYLINDER GRAY

Silicon Carbide Abrasive Balls For Flawless "Inside" Polishing On Revolvers & Semi- Auto Pistols

BROWNELLS CYLINDER POLISHING SYSTEM   The Brownells Cylinder Polishing System is a specialized tool designed to smooth and polish rough or scored revolver chambers, enhancing extraction efficiency and overall firearm performance. By eliminating imperfections within the cylinder, this system ensures a friction-free surface, thereby reducing the likelihood of extraction issues during operation.   Description and Features: This polishing system utilizes medium and fine grit silicon carbide abrasives embedded in twisted steel shafts, providing effective material removal and a polished finish. The hones are 3 inches in length, making them suitable for various revolver calibers, including .32, .38/.357, .41, .44, .45 ACP, and .45 Colt. Additionally, the system can be employed to remove machine marks on semi-automatic pistol spring "ways," resulting in smoother hammer falls and improved cycling. For optimal performance and longevity of the hones, it is recommended to use them with Flex-Hone oil.   Specifications: Abrasive Material: Silicon carbide Grit Options: Medium and fine Shaft Material: Twisted steel Hone Length: 3 inches Compatible Calibers: .32, .38/.357, .41, .44, .45 ACP, .45 Colt Customer Insights: Customers of the Brownells Cylinder Polishing System commend its effectiveness in resolving extraction problems by providing a smooth, polished chamber surface. The ease of use and quick results are frequently highlighted, with many noting significant improvements in firearm performance after application. The system's versatility in accommodating various calibers and its ability to enhance semi-automatic pistol operation by smoothing spring "ways" are also appreciated.   Incorporating the Brownells Cylinder Polishing System into your gunsmithing toolkit ensures efficient and thorough polishing of revolver chambers and semi-automatic pistol components, leading to enhanced reliability and performance of your firearms.

Attributes

- Name: POLISHING HONE FINE COURSE .45 ACP CYLINDER GRAY
- Manufacturer: BROWNELLS
- Product no.: 080608245
- Mfr. No.: 00906

Brownell's Cylinder Polishing System Safety Instruction Guide

Introduction

Thank you for choosing the Brownell's Cylinder Polishing System. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. By following these guidelines, you can enhance your firearm's performance while ensuring your safety and that of others.

General Safety Guidelines

- Ensure the product is used only for its intended purpose of polishing revolver chambers and semiautomatic pistol components.
- Always keep the product out of reach of children and unauthorized users.
- Inspect the polishing hones for any damage before each use. Do not use if damaged.
- Wear appropriate personal protective equipment (PPE) such as safety goggles and gloves to protect against dust and debris.
- Follow all local laws and regulations regarding the use and maintenance of firearms.

Specific Safety Precautions for Use

- **Hazard Identification:**
  - The polishing system may produce fine dust that can be harmful if inhaled. Use in a wellventilated area or wear a dust mask.
  - Improper use may lead to damage to the firearm or personal injury. Always adhere to the instructions provided.
- **Avoiding Hazards:**
  - Do not exceed the recommended usage duration for the hones to prevent overheating.
  - Ensure the firearm is unloaded and secured before beginning any polishing work.
  - Keep hands and other body parts clear of moving parts during operation.

Instructions for Installation and Usage

1. **Preparation:**

   - Ensure that the firearm is completely unloaded.
   - Gather all necessary tools and safety equipment.

2. **Installation:**

   - Insert the polishing hone into the appropriate drill or hand tool following the manufacturer's instructions.
   - Secure the hone properly to prevent it from coming loose during use.

3. **Usage:**

   - Apply a few drops of FlexHone oil to the hone before starting.
   - Turn on the drill or hand tool at a low speed to avoid excessive friction.
   - Gradually increase the speed while gently guiding the hone into the revolver chamber or semiautomatic pistol component.
   - Use a backandforth motion to ensure even polishing. Avoid excessive pressure.
   - Periodically check the surface for smoothness and polish until the desired finish is achieved.

4. **PostUsage:**

   - Clean the polishing hones with a suitable solvent to remove any residue.
   - Store the hones in a dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any used polishing hones and materials in accordance with local regulations.
- Do not dispose of in household waste. Check for local hazardous waste disposal guidelines.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Brownell's Cylinder Polishing System, please refer to the manufacturer's contact details available on the packaging or product website.

By following these safety instructions, you can ensure a safe and effective experience with the Brownell's Cylinder Polishing System. Always prioritize safety and responsible usage to enhance your firearm's performance while protecting yourself and others.
