## **Silicon Carbide Abrasive Balls For Flawless "Inside" Polishing On Revolvers & Semi- Auto Pistols**

**BROWNELLS CYLINDER POLISHING SYSTEM** The Brownells Cylinder Polishing System is a specialized tool designed to smooth and polish rough or scored revolver chambers, enhancing extraction efficiency and overall firearm performance. By eliminating imperfections within the cylinder, this system ensures a friction-free surface, thereby reducing the likelihood of extraction issues during operation. **Description and Features:** This polishing system utilizes medium and fine grit silicon carbide abrasives embedded in twisted steel shafts, providing effective material removal and a polished finish. The hones are 3 inches in length, making them suitable for various revolver calibers, including .32, .38/.357, .41, .44, .45 ACP, and .45 Colt. Additionally, the system can be employed to remove machine marks on semi-automatic pistol spring "ways," resulting in smoother hammer falls and improved cycling. For optimal performance and longevity of the hones, it is recommended to use them with Flex-Hone oil. **Specifications:** Abrasive Material: Silicon carbide Grit Options: Medium and fine Shaft Material: Twisted steel Hone Length: 3 inches Compatible Calibers: .32, .38/.357, .41, .44, .45 ACP, .45 Colt Customer Insights: Customers of the Brownells Cylinder Polishing System commend its effectiveness in resolving extraction problems by providing a smooth, polished chamber surface. The ease of use and quick results are frequently highlighted, with many noting significant improvements in firearm performance after application. The system's versatility in accommodating various calibers and its ability to enhance semi-automatic pistol operation by smoothing spring "ways" are also appreciated. Incorporating the Brownells Cylinder Polishing System into your gunsmithing toolkit ensures efficient and thorough polishing of revolver chambers and semi-automatic pistol components, leading to enhanced reliability and performance of your firearms.

# **CYLINDER POLISHING SYSTEM BROWNELLS POLISHING HONE FINE COURSE .45 COLT CYLINDER GRAY Safety Instruction Guide**

## **Introduction**

Thank you for choosing the Cylinder Polishing System Brownells Polishing Hone Fine Course .45 Colt Cylinder Gray. This product is designed to enhance the performance of your revolver and semiauto pistol by polishing rough or scored chambers. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## **General Safety Guidelines**

- Always use the product in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free from any obstructions.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves while using the product.
- Regularly inspect the product for any signs of wear or damage before use.
- Dispose of any waste materials properly according to local regulations.

## **Specific Safety Precautions for Use**

- Ensure that the firearm is unloaded and pointed in a safe direction before starting any work.
- Use only FlexHone Oil with this product to avoid damage and ensure optimal performance.
- Avoid excessive pressure when polishing to prevent damage to the cylinder or hone.
- Do not use the polishing hone on any surfaces not specified in the instructions.
- If you experience any discomfort or unusual reactions while using the product, stop immediately and seek assistance.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Gather all necessary materials, including the polishing hone and FlexHone Oil.
- Ensure that the firearm is completely unloaded and in a safe position.

### **2. Using the Polishing Hone:**

- Apply a sufficient amount of FlexHone Oil to the polishing hone.
- Insert the hone into the chamber of the revolver or semiauto pistol.
- Begin polishing by gently moving the hone back and forth. Do not apply excessive pressure.
- Continue polishing until the desired smoothness is achieved, typically within a few minutes.

### **3. Cleaning Up:**

- After use, clean the polishing hone and any tools used in the process.
- Dispose of any oily rags or waste materials according to local regulations.

### **4. Storage:**

- Store the polishing hone in a cool, dry place, away from direct sunlight and moisture.
- Keep the product in its original packaging or a protective case to prevent damage.

## Disposal Instructions

- Dispose of the polishing hone and any associated materials in accordance with local waste management regulations.
- Do not dispose of the product in regular household waste. Check for recycling programs or hazardous waste collection events in your area.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the Cylinder Polishing System, please consult your local authorities or the appropriate regulatory bodies. Make sure to stay informed about product recalls and safety alerts through the EU's Safety Gate platform.

By following these safety instructions, you can ensure a safe and effective experience with the Cylinder Polishing System Brownells Polishing Hone Fine Course .45 Colt Cylinder Gray. Thank you for your attention to safety and proper use.
