

SHOTGUN BARREL POLISHING FLEX HONE® - BROWNELLS 410 BORE FINE FLEX HONE, CHAMBER

[Gunsmith Tools](#) > [Shotgun Tools](#) > [Barrel Hones & Accessories](#)

Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. Safety Instruction Guide for SHOTGUN BARREL POLISHING FLEX HONE® BROWNELLS 410 BORE FINE FLEX HONE, CHAMBER

Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® BROWNELLS 410 BORE FINE FLEX HONE, CHAMBER. This product is designed to help you clean and polish shotgun barrels effectively. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the Flex Hone by following all instructions and safety precautions. This product is not intended for use by children.
- **Enhanced Recalls:** In the event of a product recall, follow the instructions provided for returning or exchanging the product.
- **Online Shopping:** If purchased online, ensure that the seller meets all safety requirements.
- **Special Consumer Focus:** This product is not intended for use by individuals under the age of 18 without adult supervision.
- **EU Contact Point:** For any safety inquiries, please refer to the product packaging for the appropriate contact information.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The abrasive "balls" on the Flex Hone can cause injury if used improperly.
 - Avoid contact with skin and eyes when using the product.
- **Avoiding Hazards:**
 - Always wear safety goggles and gloves when using the Flex Hone.
 - Ensure the drill is securely fastened to avoid accidents during operation.
 - Do not exceed the maximum speed of 750 RPM.
 - Avoid using excessive pressure while honing to prevent damage to the barrel and the hone.
- **AgeSpecific Warnings:**
 - This product is not suitable for individuals under 18 years of age unless under adult supervision.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials: Flex Hone, variable speed electric drill, Flex Hone oil, and cleaning patches.
- Ensure the workspace is clean and free from distractions.

2. Setup:

- Insert the Flex Hone into the chuck of the variable speed electric drill.

- Ensure it is securely fastened before use.

3. Application:

- Wet the Flex Hone with Flex Hone oil before starting.
- Start the drill and carefully insert the hone into the barrel from the breech end, if possible.
- Allow the hone to rotate while applying gentle pressure. A slurry of abrasive and oil will develop to assist in the honing process.
- Monitor for tight spots during honing and spend extra time on these areas until they are evenly polished.

4. PostUse:

- After honing, run a cleaning patch through the barrel to remove any debris.
- Clean the Flex Hone with appropriate cleaning solutions and store it in a safe place.

Disposal Instructions

- Dispose of any used Flex Hone oil and debris in accordance with local regulations.
- Do not dispose of the product in household waste. Check local guidelines for proper disposal of abrasive materials and tools.

Contact Information for Further Support

For any questions or concerns regarding the use of the SHOTGUN BARREL POLISHING FLEX HONE®, please refer to the contact information provided on the product packaging.

By following these safety instructions, you can ensure a safe and effective experience with the SHOTGUN BARREL POLISHING FLEX HONE® BROWNELLS 410 BORE FINE FLEX HONE, CHAMBER. Thank you for your attention to safety.
