

REMINGTON 870 RIVET STAKING TOOL SET - BROWNELLS

REMINGTON 870 RIVET STAKE TOOL SET

[Gunsmith Tools](#) > [Shotgun Tools](#) > [Staking Tools](#)

Takes The Pain Out Of Fitting The 2-Step Rivet

Two specially ground punches make fitting the 870 ejector spring and housing onto Remingtons' unique 2-step rivet a snap! The hole in the face of the #1 tool allows you to fasten the ejector housing to the receiver with the lower portion of the rivet. The #2 tool is then used to secure the ejector spring within the ejector housing with the upper portion of the rivet. Deluxe Kit combines the above two punches with an ejector spring rivet cutter that lets you take off just the peened area of the front rivet. Often lets you re-peen the existing rivet.

REMINGTON 870 Rivet Staking Tool Set Safety Instructions

Introduction

Thank you for purchasing the REMINGTON 870 Rivet Staking Tool Set. This tool set is designed to assist you in safely and effectively fitting the 870 ejector spring and housing onto Remington's unique 2step rivet. Please read this safety instruction guide carefully to ensure safe use and compliance with all safety regulations.

General Safety Guidelines

- Ensure that the tool set is used only for its intended purpose.
- Always inspect the tools for damage or wear before use.
- Keep the tools out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the tools.
- Read and follow all instructions provided in this manual.
- Report any unsafe conditions or accidents to the relevant authorities immediately.
- Check the EU's Safety Gate platform regularly for any recall updates related to this product.

Specific Safety Precautions for Use

- Always work in a welllit and clean area to avoid accidents.
- Ensure that the workpiece is securely clamped or held in place before using the punches or rivet cutter.
- Use the appropriate tool for each specific task to prevent injury and damage to the tools.
- Avoid using excessive force when operating the tools as this may lead to tool failure or personal injury.
- Never attempt to modify the tools or use them for purposes other than intended.
- If you experience any discomfort or pain while using the tools, stop immediately and consult a professional.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before beginning the installation.
- Ensure that the work area is clean and free of clutter.

2. Using the Punches:

- Select the #1 punch for fastening the ejector housing to the receiver.
- Align the punch with the lower portion of the rivet and apply steady pressure to secure the ejector housing.
- Once secured, switch to the #2 punch to secure the ejector spring within the ejector housing using the upper portion of the rivet.

3. Using the Rivet Cutter:

- Position the rivet cutter over the peened area of the front rivet.
- Apply even pressure to cut off just the peened area, allowing for re-peening of the existing rivet if necessary.

4. PostInstallation:

- Inspect the installation to ensure all components are secure and properly aligned.

- Clean the tools after use and store them in a safe place.

Disposal Instructions

- Dispose of any damaged or worn tools in accordance with local regulations.
- Recycle materials whenever possible to minimize environmental impact.
- Ensure that all tools are disposed of in a manner that prevents access by children and unauthorized individuals.

Contact Information for Further Support

For any inquiries or concerns regarding the REMINGTON 870 Rivet Staking Tool Set, please refer to the product packaging or your point of purchase for contact information.

Thank you for choosing the REMINGTON 870 Rivet Staking Tool Set. By following these safety instructions, you can ensure a safe and effective experience with your new tools.
