

REMINGTON 870 RIVET STAKING TOOL SET - BROWNELLS

REMINGTON 870 DELUXE STAKING KIT

[Gunsmith Tools](#) > [Shotgun Tools](#) > [Staking Tools](#)

Takes The Pain Out Of Fitting The 2-Step Rivet

Two specially ground punches make fitting the 870 ejector spring and housing onto Remingtons' unique 2-step rivet a snap! The hole in the face of the #1 tool allows you to fasten the ejector housing to the receiver with the lower portion of the rivet. The #2 tool is then used to secure the ejector spring within the ejector housing with the upper portion of the rivet. Deluxe Kit combines the above two punches with an ejector spring rivet cutter that lets you take off just the peened area of the front rivet. Often lets you re-peen the existing rivet.

REMINGTON 870 RIVET STAKING TOOL SET

SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the REMINGTON 870 Rivet Staking Tool Set. This guide provides important safety instructions and usage information to ensure a safe experience while using this product. Please read and follow these instructions carefully.

General Safety Guidelines

- Ensure that the tool set is used only for its intended purpose, which is to fit the 870 ejector spring and housing onto Remington's unique 2step rivet.
- Keep the tool set out of reach of children and pets to prevent accidents.
- Always inspect the tools before use for any signs of damage or wear. Do not use damaged tools.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating the tool.
- Work in a welllit area to avoid accidents and ensure visibility.
- Store the tool set in a dry place to prevent rust and deterioration.

Specific Safety Precautions for Use

- Use the #1 tool to fasten the ejector housing to the receiver only as instructed. Improper use may lead to injury or damage.
- When using the #2 tool, ensure that your hands and fingers are clear of the area where the rivet will be secured.
- Never place your face or body in line with the tool during operation to avoid injury from potential tool slippage.
- Follow all instructions carefully when using the ejector spring rivet cutter to avoid injury.
- If you are inexperienced with this type of tool, seek assistance from a qualified individual or professional.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure that the work area is clean and free of clutter.

2. Using the #1 Tool:

- Align the ejector housing with the receiver.
- Insert the lower portion of the rivet into the designated hole.
- Use the #1 tool to fasten the ejector housing securely to the receiver.

3. Using the #2 Tool:

- After securing the ejector housing, position the ejector spring within the housing.
- Insert the upper portion of the rivet into the designated area.
- Use the #2 tool to secure the ejector spring firmly within the ejector housing.

4. Using the Rivet Cutter:

- Position the rivet cutter over the peened area of the front rivet.

- Gently apply pressure to cut off only the peened area without damaging the rivet or surrounding components.
- After cutting, repeen the existing rivet if necessary.

Disposal Instructions

- Dispose of any unused or damaged tools in accordance with local regulations.
- Do not dispose of tools in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any inquiries or additional support regarding the REMINGTON 870 Rivet Staking Tool Set, please consult the product packaging or reach out to the retailer where the product was purchased.

By following these safety instructions, you can ensure a safe and effective experience while using the REMINGTON 870 Rivet Staking Tool Set. Always prioritize safety and consult professionals if you have any doubts or questions. Thank you for your attention to these guidelines.
