

REVOLVER RANGE RODS - REVOLVER RANGE ROD COMBO FOR .38/357 SERVICE

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Alignment Tools](#) > [Range Rods](#)

Tells Instantly If Barrel & Cylinder Are In Perfect Alignment-Match & Service Grade Available

Lets you know instantly if a revolver barrel and cylinder are in perfect alignment and if cylinder crane or yoke has been sprung, thus throwing axis of each out of line with axis of barrel bore . . . for timing - "accuracy jobs" . . . locating cause of lead splatter . . . professional service inspections. An excellent tool to use when demonstrating to a customer "why"! The handle with knurled grip end is threaded to take any of the interchangeable heads, with sizes carefully selected to indicate very small misalignments. The .38 caliber heads are available in two diameters, one for Match guns that must be dead on for best performance and one for Service guns which aren't always thoroughly clean and don't have to meet quite as fine an accuracy standard. And, there's a special head for the S&W K-22 which has a slightly undersized bore.

Safety Instruction Guide for REVOLVER RANGE RODS REVOLVER RANGE ROD COMBO FOR .38/357 SERVICE

Introduction

Thank you for choosing the REVOLVER RANGE RODS REVOLVER RANGE ROD COMBO FOR .38/357 SERVICE. This product is designed to assist in ensuring the proper alignment of revolver barrels and cylinders. It is essential to follow the safety guidelines outlined in this document to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for use and maintenance.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage before use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always handle the revolver and the range rods with care to avoid injury.
- Ensure the revolver is unloaded before attaching or using the range rods.
- Avoid using the range rods in environments where they may be exposed to moisture or extreme temperatures.
- Do not force any components together; ensure that they fit correctly without excessive pressure.
- Use the appropriate head size for the specific caliber to ensure accurate alignment.
- Wear safety glasses when using the product to protect against potential debris.

Instructions for Installation and Usage

1. Preparation

- Ensure you have the correct range rod handle and head for your revolver caliber.
- Inspect the range rod and heads for any signs of damage.

2. Attaching the Head

- Select the appropriate head based on the caliber of your revolver.
- Thread the head onto the handle securely.

3. Using the Range Rod

- Insert the assembled range rod into the revolver barrel.
- Gently push the rod until it reaches the cylinder.
- Check for proper alignment by observing the fit of the rod in the barrel and cylinder.
- If misalignment is detected, consult a professional gunsmith for further inspection.

4. PostUse Care

- Carefully remove the range rod from the revolver.
- Clean the range rod and heads after each use to maintain their condition.

- Store the range rod and heads in a dry, safe place, preferably in the fitted storage box provided.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If components are damaged or no longer usable, separate them from regular waste and follow local guidelines for hazardous materials if applicable.

Contact Information for Further Support

For any inquiries regarding safety, usage, or support, please refer to the product packaging or visit the manufacturer's website for additional resources.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your REVOLVER RANGE RODS REVOLVER RANGE ROD COMBO FOR .38/357 SERVICE.
