## **Tells Instantly If Barrel & Cylinder Are In Perfect Alignment-Match & Service Grade Available**

Lets you know instantly if a revolver barrel and cylinder are in perfect alignment and if cylinder crane or yoke has been sprung, thus throwing axis of each out of line with axis of barrel bore . . . for timing - "accuracy jobs" . . . locating cause of lead splatter . . . professional service inspections. An excellent tool to use when demonstrating to a customer "why"! The handle with knurled grip end is threaded to take any of the interchangeable heads, with sizes carefully selected to indicate very small misalignments. The .38 caliber heads are available in two diameters, one for Match guns that must be dead on for best performance and one for Service guns which aren't always thoroughly clean and don't have to meet quite as fine an accuracy standard. And, there's a special head for the S&W K-22 which has a slightly undersized bore.

## **Attributes**

- Name: [REVOLVER RANGE ROD COMBO FOR .38/357 MATCH](#)
- Manufacturer: [BROWNELLS](#)

# Safety Instruction Guide for REVOLVER RANGE RODS REVOLVER RANGE ROD COMBO FOR .38/357 MATCH

## Introduction

Thank you for choosing the REVOLVER RANGE RODS REVOLVER RANGE ROD COMBO FOR .38/357 MATCH. This product is designed to help you ensure the proper alignment of revolver barrels and cylinders, which is crucial for safety and performance. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Ensure that the revolver is unloaded before using the range rod.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the range rod and its components for any signs of damage or wear before each use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about any product recalls or safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the range rod only for the intended purpose of checking alignment in revolvers.
- Do not force the range rod into the barrel or cylinder. If resistance is encountered, stop and inspect for obstructions.
- Ensure that all heads are securely attached to the handle before use.
- Avoid using the range rod in wet or damp conditions to prevent slipping or damage.
- Do not modify or alter any components of the range rod.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the revolver is completely unloaded and pointed in a safe direction.
- Inspect the range rod for any damage or defects.

### 2. Attaching the Head:

- Select the appropriate head for your revolver caliber.
- Align the threads on the head with the handle and screw it in until secure.

### 3. Using the Range Rod:

- Insert the range rod into the barrel of the revolver gently.
- Check for alignment by observing the fit of the rod in the cylinder.
- If there is any misalignment or resistance, remove the rod and inspect the revolver.

### 4. Cleaning and Maintenance:

- After use, clean the range rod with a soft, dry cloth.
- Store the range rod and its components in a safe, dry place.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for nonhazardous materials.
- Do not dispose of the product in household waste if it is damaged or broken.
- Consider recycling any metal components if applicable.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of this product, please refer to the manufacturer's contact information provided with the product packaging. Always ensure that you follow the latest safety guidelines and product updates.

Thank you for prioritizing safety while using the REVOLVER RANGE RODS REVOLVER RANGE ROD COMBO FOR .38/357 MATCH. Your attention to these guidelines helps ensure a safe and effective experience.
