

# REVOLVER RANGE RODS - BROWNELLS REVOLVER RANGE ROD HEAD FOR .22 MAGNUM

[Gunsmith Tools](#) > [Handgun Tools](#) > [Alignment Tools](#) > [Range Rods](#)

## Tells Instantly If Barrel & Cylinder Are In Perfect Alignment-Match & Service Grade Available

Lets you know instantly if a revolver barrel and cylinder are in perfect alignment and if cylinder crane or yoke has been sprung, thus throwing axis of each out of line with axis of barrel bore . . . for timing - "accuracy jobs" . . . locating cause of lead splatter . . . professional service inspections. An excellent tool to use when demonstrating to a customer "why"! The handle with knurled grip end is threaded to take any of the interchangeable heads, with sizes carefully selected to indicate very small misalignments. The .38 caliber heads are available in two diameters, one for Match guns that must be dead on for best performance and one for Service guns which aren't always thoroughly clean and don't have to meet quite as fine an accuracy standard. And, there's a special head for the S&W K-22 which has a slightly undersized bore.

# Safety Instruction Guide for REVOLVER RANGE RODS BROWNELLS REVOLVER RANGE ROD HEAD FOR .22 MAGNUM

## Introduction

Thank you for choosing the REVOLVER RANGE RODS BROWNELLS REVOLVER RANGE ROD HEAD FOR .22 MAGNUM. This product is designed to help you ensure that your revolver barrel and cylinder are perfectly aligned, which is crucial for accuracy and performance. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions to avoid potential hazards.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product before each use. Do not use if any part is damaged or worn.
- Ensure that you are in a safe environment free from distractions when using the product.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Alignment Verification:** Ensure that the revolver barrel and cylinder are properly aligned before performing any maintenance or inspections.
- **Handle with Care:** The heads are made of hardened steel and can cause injury if misused. Always handle with care.
- **Proper Fitting:** Use only the designated heads for the corresponding range rod handle. Do not attempt to fit incompatible heads.
- **Avoid OverTightening:** When attaching heads, ensure they are snug but do not overtighten, as this may damage the threads.
- **Use Protective Gear:** It is recommended to wear safety glasses when using the product to protect against any potential debris.

## Instructions for Installation and Usage

### 1. Selecting the Correct Head:

- Choose the appropriate head based on the caliber of your revolver. Refer to the specifications for available sizes.

### 2. Attaching the Head:

- Ensure the handle is clean and free of debris.
- Align the head with the threaded end of the handle.
- Screw the head onto the handle until it is securely attached.

### 3. Using the Range Rod:

- Insert the range rod into the revolver's barrel.
- Gently push the rod until it reaches the cylinder. Observe for any misalignment.
- If any misalignment is detected, further inspection of the revolver's components is recommended.

### 4. PostUse Care:

- After use, clean the heads and handle to remove any residue.
- Store the range rod and heads in a safe, dry place.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- If the product is damaged or no longer usable, ensure it is disposed of in a manner that prevents injury to others.

## **Contact Information for Further Support**

For any inquiries regarding safety or usage of the REVOLVER RANGE RODS BROWNELLS REVOLVER RANGE ROD HEAD FOR .22 MAGNUM, please refer to the manufacturer's contact information provided with your product.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our highest priorities.
