

REVOLVER RANGE RODS - REVOLVER RANGE ROD HEAD FOR .38/357 MATCH

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Alignment Tools](#) > [Range Rods](#)

Tells Instantly If Barrel & Cylinder Are In Perfect Alignment-Match & Service Grade Available

Lets you know instantly if a revolver barrel and cylinder are in perfect alignment and if cylinder crane or yoke has been sprung, thus throwing axis of each out of line with axis of barrel bore . . . for timing - "accuracy jobs" . . . locating cause of lead splatter . . . professional service inspections. An excellent tool to use when demonstrating to a customer "why"! The handle with knurled grip end is threaded to take any of the interchangeable heads, with sizes carefully selected to indicate very small misalignments. The .38 caliber heads are available in two diameters, one for Match guns that must be dead on for best performance and one for Service guns which aren't always thoroughly clean and don't have to meet quite as fine an accuracy standard. And, there's a special head for the S&W K-22 which has a slightly undersized bore.

Safety Instruction Guide for REVOLVER RANGE RODS REVOLVER RANGE ROD HEAD FOR .38/357 MATCH

Introduction

Thank you for purchasing the REVOLVER RANGE RODS REVOLVER RANGE ROD HEAD FOR .38/357 MATCH. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the product.

General Safety Guidelines

- Always handle the product with care to avoid accidents or injuries.
- Use the product only for its intended purpose as described in the product specifications.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear or damage before each use.
- If you notice any defects or malfunctions, discontinue use immediately and seek assistance.
- Follow all local laws and regulations regarding the use of firearms and related accessories.

Specific Safety Precautions for Use

- Ensure that the revolver is unloaded before attaching or using the range rod.
- Confirm that the barrel and cylinder are free from obstructions before use.
- Use the appropriate head size for your specific revolver model to ensure accurate alignment.
- Avoid forcing the range rod into the barrel or cylinder, as this may cause damage.
- Do not use the range rod if it appears to be damaged or if the heads do not interchange smoothly.
- When demonstrating the product to others, ensure that all safety protocols are followed to prevent accidents.

Instructions for Installation and Usage

1. Preparation

- Ensure the revolver is unloaded and pointed in a safe direction.
- Gather the necessary components: the range rod handle and the appropriate head.

2. Attaching the Head

- Select the correct head size for your revolver model.
- Align the threaded end of the head with the handle and screw it in securely.
- Ensure the head is firmly attached before proceeding.

3. Using the Range Rod

- Insert the range rod head into the revolver's barrel.
- Gently push the rod through the barrel until it reaches the cylinder.
- Check for alignment by observing the positioning of the cylinder relative to the barrel.
- If misalignment is detected, consult a professional for further inspection.

4. PostUse Care

- After use, carefully remove the range rod and head from the revolver.

- Clean the range rod and heads as necessary to maintain their condition.
- Store the product in a safe, dry place, away from children and unauthorized users.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options where available to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please consult the manufacturer's website or contact customer service through the provided channels.

By following these safety instructions, you can ensure a safe and effective experience with the REVOLVER RANGE RODS REVOLVER RANGE ROD HEAD FOR .38/357 MATCH. Always prioritize safety and compliance with local laws when using firearm accessories.
