

REVOLVER RANGE RODS - REVOLVER RANGE ROD HANDLE 22-45 CALIBER

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Alignment Tools](#) > [Range Rods](#)

Tells Instantly If Barrel & Cylinder Are In Perfect Alignment-Match & Service Grade Available

Lets you know instantly if a revolver barrel and cylinder are in perfect alignment and if cylinder crane or yoke has been sprung, thus throwing axis of each out of line with axis of barrel bore . . . for timing - "accuracy jobs" . . . locating cause of lead splatter . . . professional service inspections. An excellent tool to use when demonstrating to a customer "why"! The handle with knurled grip end is threaded to take any of the interchangeable heads, with sizes carefully selected to indicate very small misalignments. The .38 caliber heads are available in two diameters, one for Match guns that must be dead on for best performance and one for Service guns which aren't always thoroughly clean and don't have to meet quite as fine an accuracy standard. And, there's a special head for the S&W K-22 which has a slightly undersized bore.

Attributes

- Name: [REVOLVER RANGE ROD HANDLE 22-45 CALIBER](#)

Safety Instruction Guide for REVOLVER RANGE RODS

Introduction

Thank you for choosing the REVOLVER RANGE RODS. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before using the product, as it contains important information regarding safety precautions, installation, usage, and disposal.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- If the product shows any signs of malfunction, discontinue use immediately and contact a qualified professional.
- Follow all local laws and regulations regarding the use of firearms and related accessories.
- Always prioritize safety when handling firearms or related equipment.

Specific Safety Precautions for Use

- Always ensure that the revolver is unloaded before using the range rod.
- Use the range rod only with compatible calibers as specified in the product specifications.
- Handle the range rod with care to avoid injury.
- When demonstrating the tool to others, ensure that all safety measures are in place.
- Avoid using the range rod in wet or damp conditions to prevent rust and corrosion.
- Store the range rod in a secure and dry location when not in use.

Instructions for Installation and Usage

1. Assemble the Handle and Heads:

- Ensure the handle is clean and free from debris.
- Select the appropriate head for your caliber.
- Screw the selected head onto the handle until secure.

2. Using the Range Rod:

- Insert the assembled range rod into the revolver barrel.
- Gently push the rod until it reaches the cylinder. Ensure that the rod is aligned properly.
- Observe any misalignments indicated by the rod to assess the condition of the revolver.
- After use, carefully remove the range rod from the barrel.

3. Cleaning and Maintenance:

- After each use, clean the range rod with a soft cloth to remove any residue.
- Store the range rod in its fitted storage box to protect it from damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If applicable, recycle materials where possible.
- Do not dispose of the product in general waste if it contains hazardous materials.

Contact Information for Further Support

For inquiries regarding safety or product concerns, please reach out to the designated EU contact point provided with your product documentation.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the REVOLVER RANGE RODS. Your safety and satisfaction are our top priorities. Thank you for your attention to these important guidelines.
