## Tells Instantly If Barrel & Cylinder Are In Perfect Alignment-Match & Service Grade Available

Lets you know instantly if a revolver barrel and cylinder are in perfect alignment and if cylinder crane or yoke has been sprung, thus throwing axis of each out of line with axis of barrel bore . . . for timing - "accuracy jobs" . . . locating cause of lead splatter . . . professional service inspections. An excellent tool to use when demonstrating to a customer "why"! The handle with knurled grip end is threaded to take any of the interchangeable heads, with sizes carefully selected to indicate very small misalignments. The .38 caliber heads are available in two diameters, one for Match guns that must be dead on for best performance and one for Service guns which aren't always thoroughly clean and don't have to meet quite as fine an accuracy standard. And, there's a special head for the S&W K-22 which has a slightly undersized bore.

# REVOLVER RANGE RODS BROWNELLS REVOLVER RANGE ROD HANDLE 17 CALIBER Safety Instruction Guide

## Introduction

Thank you for choosing the REVOLVER RANGE RODS BROWNELLS REVOLVER RANGE ROD HANDLE 17 CALIBER. This guide provides essential safety instructions to ensure the safe use and handling of the product. Please read this manual carefully to understand the safety precautions, installation, and usage instructions.

## General Safety Guidelines

- Always use the product in accordance with the instructions provided.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product before each use to ensure it is in good working condition.
- Do not use the product if any part is damaged or malfunctioning.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for product recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the revolver is unloaded before using the range rod.
- Use the range rod only for its intended purpose, which is to check the alignment of revolver barrels and cylinders.
- Avoid applying excessive force when inserting or removing the range rod to prevent damage.
- Use the correct head size for your specific caliber to ensure accurate readings.
- Store the range rod and its components in a secure location after use to prevent accidental injury.
- Wear safety glasses when using the range rod to protect your eyes from potential debris.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the revolver is completely unloaded.
- Gather all components of the range rod kit, including the handle and interchangeable heads.

### 2. Attaching the Head:

- Select the appropriate head for your caliber.
- Thread the head onto the handle securely, ensuring it is firmly attached.

### 3. Using the Range Rod:

- Insert the range rod into the revolver barrel.
- Observe the alignment of the barrel and cylinder through the sighting mechanism.
- If misalignment is detected, consult a qualified gunsmith for further inspection.

### 4. PostUse:

- Remove the range rod from the barrel gently.
- Clean the range rod and heads as needed to maintain their condition.
- Store the range rod in its designated storage box to keep it organized and protected.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for nonhazardous materials.
- Do not incinerate or dispose of the product in a manner that could cause environmental harm.
- If the product is damaged beyond repair, ensure it is disposed of safely to prevent injury.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the REVOLVER RANGE RODS BROWNELLS REVOLVER RANGE ROD HANDLE 17 CALIBER, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your REVOLVER RANGE RODS BROWNELLS REVOLVER RANGE ROD HANDLE 17 CALIBER. Thank you for your attention to safety.
