Safety Instruction Guide for BARREL THREADING LATHE BITS 3/8" THREADING BIT, 60°

Introduction

Thank you for purchasing the BARREL THREADING LATHE BITS. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using lathe bits.
- Keep the work area clean and welllit to prevent accidents.
- Store the lathe bits in a dry, secure location away from children and pets.
- Regularly inspect the lathe bits for any signs of wear or damage before use.
- Do not use the lathe bits for any purpose other than their intended use.

Specific Safety Precautions for Use

- **Hazard Identification:** The use of lathe bits can pose risks such as cuts, lacerations, and eye injuries.
- **Avoiding Hazards:**
 - Always ensure that the lathe is properly secured before use.
 - Do not attempt to adjust or change settings while the lathe is in operation.
 - Keep hands and other body parts away from the cutting area when the lathe is running.
 - Use the correct size and type of lathe bit for your specific application to avoid damage to the workpiece or injury.
- **AgeSpecific Warnings:**
 - This product is not intended for use by individuals under the age of 18.
 - Ensure that inexperienced users are supervised by a qualified adult.

Instructions for Installation and Usage

- **Installation:**
 - Ensure that the lathe is turned off and unplugged before installing the lathe bit.
 - Select the appropriate threading bit size (3/8") for your project.
 - Insert the lathe bit into the chuck of the lathe and secure it tightly according to the manufacturer's instructions.
- **Usage:**
 - Before starting the lathe, doublecheck that all safety guards are in place.
 - Turn on the lathe and allow it to reach the desired speed before beginning to cut.
 - Maintain a steady and controlled feed rate when cutting to ensure a clean thread.
 - If you encounter resistance or unusual noises, stop the lathe immediately and investigate the issue.
 - After use, turn off the lathe and allow it to come to a complete stop before removing the lathe bit.

Disposal Instructions

- Dispose of any damaged or worn lathe bits in accordance with local regulations.
- Do not dispose of lathe bits in regular household waste. Instead, consider recycling options available in your area.

Contact Information for Further Support

For safety inquiries or further assistance, please contact the manufacturer directly through their official channels. Ensure that you have the product details and any relevant information ready for an efficient response.

By following these safety instructions, you can help ensure a safe and effective experience while using the BARREL THREADING LATHE BITS. Thank you for your attention to safety!
