RSA100 17 LB. PROSPRING KIT SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the RSA100 17 LB. ProSpring Kit for the New Model Ruger® Single Action. This kit is designed to enhance the performance of your firearm, providing a smoother and more reliable shooting experience. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure safe handling and usage of the RSA100 ProSpring Kit.
- Always treat firearms as if they are loaded.
- Store the kit and the firearm in a secure location, away from children and unauthorized users.
- Follow all local laws and regulations regarding firearm modifications and usage.
- Regularly inspect the firearm and its components for wear or damage.
- Report any unsafe products or accidents to local authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the RSA100 ProSpring Kit with the specified Ruger® Single Action models.
- Ensure that you are familiar with the operation of your firearm before attempting to install the kit.
- Wear appropriate safety gear, including eye protection, during installation and use.
- Do not modify the kit or use it in a manner not specified in these instructions.
- If you experience any issues during installation or use, cease operation immediately and seek assistance.

Instructions for Installation and Usage

Installation Instructions

1. Preparation:

- Ensure the firearm is unloaded and the working area is clear of distractions.
- Gather necessary tools, including a screwdriver and any other specified tools.

2. Disassembly of Firearm:

- Carefully disassemble the Ruger® Single Action according to the manufacturer's instructions.
- Keep track of all parts to ensure proper reassembly.

3. Replacing the Hammer Spring:

- Remove the factory hammer spring (23 lb) from the firearm.
- Install the new 17 lb hammer spring from the RSA100 kit in its place.
- Ensure the spring is seated properly and securely.

4. Replacing the Trigger Spring:

- Remove the factory trigger spring.
- Install the 35% reduced power trigger spring from the RSA100 kit.
- Doublecheck that the spring is positioned correctly.

5. Installing the Base Pin Latch Spring:

- Replace the factory base pin latch spring with the extra power base pin latch spring included in the kit.
- Ensure all springs are correctly installed before proceeding.

6. Reassembly:

- Carefully reassemble the firearm, ensuring all components are correctly aligned and secured.
- Perform a function check to ensure the firearm operates correctly.

Usage Instructions

- After installation, familiarize yourself with the new trigger pull and hammer function.
- Always conduct a safety check before each use.
- Practice safe shooting habits and follow all range rules and regulations.

Disposal Instructions

- Dispose of any old springs or components in accordance with local waste management regulations.
- Do not dispose of any parts in a manner that could pose a risk to the environment or safety.

Contact Information for Further Support

For any questions or concerns regarding the RSA100 17 LB. ProSpring Kit, please consult the manufacturer's website or contact their customer service for assistance.

Thank you for choosing the RSA100 ProSpring Kit. Your safety and satisfaction are our top priorities. Please follow these instructions carefully to ensure safe and effective use of your product.
