RGP103 PROSPRING KIT FOR RUGER GP100:

Safety Instruction Guide

Introduction

Thank you for choosing the RGP103 ProSpring Kit for your Ruger GP100. This guide provides essential safety instructions and recommendations to ensure the safe and effective use of the product. Please read this document carefully before installation or use.

General Safety Guidelines

- Ensure safe handling and usage of the RGP103 ProSpring Kit.
- Be aware of potential risks associated with modifying firearm components.
- Follow all local laws and regulations regarding firearm modifications.
- Keep the product out of reach of children and unauthorized users.
- Regularly check for product recalls and updates via the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before beginning any installation or modification.
- Wear appropriate safety gear, including eye protection, during installation.
- Handle springs with care to avoid injury; they can store significant energy.
- Do not attempt to modify or install springs if you are unfamiliar with firearm mechanics.
- Consult a qualified gunsmith if you are unsure about any part of the installation process.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools: a screwdriver, pliers, and a clean workspace.

2. Installation of Hammer Springs

- Remove the grip and any components blocking access to the hammer assembly.
- Carefully remove the existing hammer spring using pliers.
- Select the desired reduced power hammer spring (9 lb., 10 lb., or 12 lb.).
- Install the new hammer spring by following the reverse order of removal.
- Reassemble the firearm after ensuring all components are properly secured.

3. Installation of Trigger Springs

- Access the trigger assembly by removing the necessary components.
- Remove the existing trigger spring.
- Choose the preferred reduced power trigger spring (8 lb. or 10 lb.).
- Install the new trigger spring, ensuring it is seated properly.
- Reassemble the firearm, ensuring all parts are securely in place.

4. PostInstallation Check

- Perform a function check to ensure the firearm operates correctly.
- Confirm that the hammer and trigger operate smoothly without binding.
- If any issues arise, consult a qualified gunsmith.

Disposal Instructions

- Dispose of any old springs and components in accordance with local regulations.
- Do not dispose of springs in a manner that could pose a risk to others.
- Consider recycling options where available.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the RGP103 ProSpring Kit, please consult your local firearms dealer or a qualified gunsmith.

By following these guidelines, you can help ensure the safe and effective use of the RGP103 ProSpring Kit for your Ruger GP100. Thank you for your attention to safety and responsible firearm handling.
