BHP501 SPRING KIT FOR BROWNING HIPOWER

Safety Instruction Guide

Introduction

Thank you for purchasing the BHP501 Spring Kit for Browning HiPower. This guide provides essential safety instructions and information to ensure the safe use and installation of the product. Please read this guide carefully to understand how to use the kit safely and effectively.

General Safety Guidelines

- Ensure that all tools and equipment used during installation are in good condition and appropriate for the task.
- Always wear appropriate safety gear, including eye protection, while handling or installing the spring kit.
- Keep the spring kit and all components out of reach of children and unauthorized users.
- Familiarize yourself with the Browning HiPower firearm manual to understand the specific safety features and operation of your firearm.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

Specific Safety Precautions for Use

- Only use the BHP501 Spring Kit with Browning HiPower firearms. Using it with other firearms may pose safety risks.
- Be aware that the recoil spring and hammer springs are under tension and can cause injury if mishandled.
- Always ensure the firearm is unloaded before beginning any installation or maintenance.
- If you are not familiar with firearm maintenance, seek assistance from a qualified gunsmith or professional.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a punch tool, hammer, and safety glasses.
- Ensure the firearm is unloaded and pointed in a safe direction.

2. Disassembly of the Firearm

- Follow the Browning HiPower manual to safely disassemble the firearm.
- Remove the slide and recoil spring assembly from the frame.

3. Installation of New Springs

- Remove the existing recoil spring and hammer springs.
- Install the new FSW 17 lb. recoil spring by placing it in the same position as the original spring.
- Replace the hammer spring with the 32 lb. hammer spring, ensuring it is seated properly.
- If desired, install the RP 28 lb. hammer spring and the XP firing pin spring as per the specifications.

4. Reassembly of the Firearm

- Carefully reassemble the firearm by following the reverse steps of disassembly.

- Ensure all components are securely in place and functioning correctly.

5. Testing

- After reassembly, perform a function check to ensure the firearm operates safely.
- Conduct a test fire in a controlled environment, following all safety protocols.

Disposal Instructions

- Dispose of any old springs and components in accordance with local regulations.
- Do not dispose of springs in regular household waste; check for recycling options or hazardous waste facilities.

Contact Information for Further Support

For any inquiries or further assistance regarding the BHP501 Spring Kit for Browning HiPower, please refer to the manufacturer's contact details provided with your product. Ensure you have the product's model number and any relevant information ready for efficient support.

Thank you for prioritizing safety while using the BHP501 Spring Kit. Your adherence to these guidelines helps ensure a safe and enjoyable experience with your Browning HiPower firearm.
