SCREW CHEK'R BROWNELLS U.S. SCREW CHEK'R STEEL Safety Instruction Guide

Introduction

Thank you for choosing the SCREW CHEK'R BROWNELLS U.S. SCREW CHEK'R STEEL. This tool is designed to assist you in determining the size, threads per inch, diameter, length, tap series, body drill size, and tap drill for machine screws. It can also be used to check the size of wood and sheet metal screws, as well as standard rivets. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure the tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of damage or wear.
- Do not use the tool if it is damaged or malfunctioning.
- Follow all instructions provided to avoid accidents or injuries.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the SCREW CHEK'R.
- Handle the tool with care to avoid injury from sharp edges.
- Do not apply excessive force when using the tool to prevent breakage.
- Ensure that the area of use is clear of any obstructions or hazards.
- Store the tool in a dry, safe place when not in use to prevent damage and ensure longevity.

Instructions for Installation and Usage

1. Preparation

- Ensure you have a clean, flat surface to work on.
- Gather all necessary materials, including screws to be measured.

2. Using the SCREW CHEK'R

- Identify the screw you wish to measure.
- Align the screw with the appropriate gauge on the SCREW CHEK'R.
- Read the size, threads per inch, diameter, and length directly from the gauge.
- For machine screws, use the U.S. Thread Model to check sizes #1 through 5/16" in NC, NS, and NF threads.
- For metric screws, utilize the Metric Thread Model to obtain diameter and length in inches and mm, as well as pitch in mm.

3. Cutting and Straightening Screws

- If you need to cut unhardened screws to length, use appropriate cutting tools designed for metal.
- To straighten bent screws, gently apply pressure in the opposite direction of the bend. Avoid excessive force to prevent breakage.

Disposal Instructions

- Dispose of the SCREW CHEK'R responsibly at a designated recycling facility.
- Follow local regulations regarding the disposal of metal products.
- Do not dispose of the tool in regular household waste.
