

# PREMIUM GRINDING POINT KIT - #5 (W-200) GRINDING STONE REFILL 6 PACK

[Gunsmith Tools & Supplies](#) > [Power Tools & Accessories](#) > [Grinding Bits](#)

## The Most Popular/Useful Shapes & Sizes

Brownells "Premium Plus" stones are the very finest we can offer. Industrial grade cobalt is added to uniformly sized aluminum oxide crystals and bonded with special, cool-running adhesives to form the hardest, longest-wearing, fastest-cutting, grinding points available to the trade. Gives a smooth, ready-to-finish surface on all types of ferrous and non-ferrous metals. Stones resist filling and gouging; can be re-ground or re-shaped, lasting much longer than "hobby" grade points. Hardened steel shafts are nickel plated for long life and stay concentric even with repeated use. We picked our 10 most popular grinding points and put 3 of each into a convenient, easy-to-store Kit and included a very special price for buying all 30 points at one time. Plus, the economical Refill 6-Paks make it easy to keep your Kit well stocked.

## Attributes

- Name: [#5 \(W-200\) GRINDING STONE REFILL 6 PACK](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080697005

# **PREMIUM GRINDING POINT KIT #5 Safety Instruction Guide**

## **Introduction**

Thank you for choosing the PREMIUM GRINDING POINT KIT #5 (W200) GRINDING STONE REFILL 6 PACK. This guide provides essential safety instructions and general guidelines to ensure safe and effective use of this product. Please read this manual carefully before use.

## **General Safety Guidelines**

- Ensure the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when using grinding points.
- Keep the workspace clean and welllit to prevent accidents.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Regularly inspect the grinding points for wear and damage before use.
- Do not exceed the recommended operating speed for the grinding points.
- Be aware of your surroundings and avoid distractions while using the product.

## **Specific Safety Precautions for Use**

- Do not use grinding points on materials for which they are not designed.
- Ensure that the grinding points are securely attached to the tool before starting.
- Use the grinding points in a wellventilated area to avoid inhaling dust particles.
- Avoid contact with the rotating grinding points to prevent injury.
- If the grinding point becomes clogged, stop the tool and clean it before continuing.
- If you experience any discomfort or unusual vibrations while using the tool, stop immediately and inspect the grinding point.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure the tool is powered off and unplugged before installation.
- Select the appropriate grinding point from the kit.
- Insert the shank of the grinding point into the tool's chuck or collet.
- Tighten the chuck or collet securely to hold the grinding point in place.

### **2. Usage:**

- Plug in the tool and turn it on.
- Hold the tool firmly with both hands and position the grinding point at the desired angle to the workpiece.
- Apply light pressure to the grinding point; do not force it against the material.
- Move the tool steadily across the surface to achieve a smooth finish.
- After use, turn off the tool and unplug it before removing the grinding point.

## **Disposal Instructions**

- Dispose of used grinding points in accordance with local regulations.
- Do not dispose of grinding points in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

## **Contact Information for Further Support**

For inquiries regarding safety or product issues, please refer to the manufacturer's contact information provided on the packaging or visit the manufacturer's website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with your PREMIUM GRINDING POINT KIT #5. Always prioritize safety and stay informed about best practices for tool usage. Thank you for your attention to these guidelines.
