## The Most Popular/Useful Shapes & Sizes

Brownells "Premium Plus" stones are the very finest we can offer. Industrial grade cobalt is added to uniformly sized aluminum oxide crystals and bonded with special, cool-running adhesives to form the hardest, longest-wearing, fastest-cutting, grinding points available to the trade. Gives a smooth, ready-to-finish surface on all types of ferrous and non-ferrous metals. Stones resist filling and gouging; can be re-ground or re-shaped, lasting much longer than "hobby" grade points. Hardened steel shafts are nickel plated for long life and stay concentric even with repeated use. We picked our 10 most popular grinding points and put 3 of each into a convenient, easy-to-store Kit and included a very special price for buying all 30 points at one time. Plus, the economical Refill 6-Paks make it easy to keep your Kit well stocked.

# **Safety Instruction Guide for PREMIUM GRINDING POINT KIT BROWNELLS #7 (W170) GRINDING STONE REFILL 6 PACK**

## **Introduction**

Thank you for choosing the PREMIUM GRINDING POINT KIT BROWNELLS #7 (W170) GRINDING STONE REFILL 6 PACK. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read all instructions carefully before using the grinding points.

## **General Safety Guidelines**

- Always follow the manufacturer's instructions for use.
- Ensure that the work area is clean, dry, and welllit.
- Wear appropriate personal protective equipment (PPE), including safety goggles, gloves, and a dust mask.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the grinding points for wear and damage before use.
- Do not use the grinding points for any purpose other than intended.

## **Specific Safety Precautions for Use**

- Do not exceed the recommended operating speed for the grinding points.
- Ensure that the grinding point is securely attached to the tool before use.
- Avoid applying excessive pressure while grinding; this may cause the stone to break.
- Use the grinding points in a wellventilated area to minimize dust inhalation.
- If you experience any discomfort or notice unusual vibrations, stop using the product immediately.
- Do not use damaged or worn grinding points; replace them as necessary.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure your grinding tool is turned off and unplugged.
- Select the appropriate grinding point from the kit.
- Insert the shank of the grinding point into the tool's collet or chuck.
- Tighten the collet or chuck securely to hold the grinding point in place.

### **2. Usage:**

- Plug in or turn on your grinding tool.
- Hold the workpiece securely and position it against the grinding point.
- Apply light, even pressure while moving the workpiece against the grinding point.
- Allow the grinding point to do the work; do not force it.
- After use, turn off the tool and unplug it before changing or inspecting the grinding points.

## **Disposal Instructions**

- Dispose of used grinding points in accordance with local regulations.
- Do not dispose of grinding points in regular household waste.
- Check if there are specific recycling programs in your area for industrial materials.
