

PLUG SCREW KIT - BROWNELLS POSITIVE STOP REFILL 8-40 STAINLESS STEEL 12 PACK

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

Plug Most Any Sight Or Scope Mount Hole On Blued & Stainless Steel Firearms

Handy, money saving assortment of positive stop and standard plug screws in the two most popular sizes. Plug screws are a real time saver around the shop. Fast and easy way to fill holes on barrels and firearm receivers. Can be ground flush and blued or polished, and most times it will be tough to tell if a hole was ever there. Positive stop screws have a rounded top that blends right in with most barrel contours without grinding. Kit also includes pair of chrome-plated, flat jaw tweezers to easily pick up the right screw, and our handy Checker/Shortener Jig makes grinding screws to the right length fast and easy.

Safety Instruction Guide for PLUG SCREW KIT BROWNELLS POSITIVE STOP REFILL 840 STAINLESS STEEL 12 PACK

Introduction

Thank you for purchasing the Plug Screw Kit Brownells Positive Stop Refill. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before using the kit.

General Safety Guidelines

- Ensure that all tools and equipment are in good condition before use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling screws and tools.
- Keep the product out of reach of children and vulnerable individuals.
- Store the kit in a cool, dry place to prevent rust or damage to the screws.
- Regularly check for any signs of wear or damage to the screws and discard any that are not in good condition.
- In case of an accident or injury, seek medical attention immediately.

Specific Safety Precautions for Use

- Always use the correct size screw for your application to avoid damage to the material.
- Avoid overtightening screws, as this can lead to stripping or breaking.
- Use the provided chromeplated tweezers to handle screws to minimize the risk of injury.
- Ensure that the Checker/Shortener Jig is used according to the instructions to avoid incorrect screw lengths.
- Be cautious when grinding screws, and ensure that you have proper ventilation and protection from dust and debris.
- Do not use the screws in any application for which they are not intended.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including the Plug Screw Kit, tweezers, and Checker/Shortener Jig.
- Ensure your workspace is clean and organized.

2. Choosing the Right Screw

- Select the appropriate plug screw size based on your project requirements. The kit includes various sizes, including 648 and 840.

3. Using the Tweezers

- Use the chromeplated tweezers to pick up the selected screw. This will reduce the risk of dropping or mishandling the screw.

4. Installing the Screw

- Insert the screw into the predrilled hole, ensuring it is aligned properly.

- Use a screwdriver to gently turn the screw into place. Ensure it is snug but do not overtighten.

5. Trimming the Screw (if necessary)

- If the screw needs to be ground down, use the Checker/Shortener Jig according to the instructions provided.
- Grind the screw to the desired length, ensuring that you wear safety glasses and work in a wellventilated area.

6. Finishing Touches

- After installation, check to ensure that the screw is flush with the surface. If necessary, you can polish or blue the area to match the surrounding material.

Disposal Instructions

- Dispose of any damaged or unusable screws in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of screws in regular household waste if they can cause injury; instead, follow local hazardous waste disposal procedures.

Contact Information for Further Support

For any safety inquiries or productrelated questions, please refer to the contact information provided with your product packaging or visit the manufacturer's website. Always ensure that you have access to support for any safety concerns you may have.

Thank you for taking the time to read and understand these safety instructions. Your safety and the effective use of the Plug Screw Kit are our top priorities.
