

PLUG SCREW KIT - BROWNELLS POSITIVE STOP REFILL 6-48 BLUED 12 PACK

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

Plug Most Any Sight Or Scope Mount Hole On Blued & Stainless Steel Firearms

Handy, money saving assortment of positive stop and standard plug screws in the two most popular sizes. Plug screws are a real time saver around the shop. Fast and easy way to fill holes on barrels and firearm receivers. Can be ground flush and blued or polished, and most times it will be tough to tell if a hole was ever there. Positive stop screws have a rounded top that blends right in with most barrel contours without grinding. Kit also includes pair of chrome-plated, flat jaw tweezers to easily pick up the right screw, and our handy Checker/Shortener Jig makes grinding screws to the right length fast and easy.

PLUG SCREW KIT BROWNELLS POSITIVE STOP REFILL 648 BLUED 12 PACK Safety Instruction Guide

Introduction

Thank you for choosing the Plug Screw Kit Brownells Positive Stop Refill. This product is designed to provide a convenient assortment of positive stop and standard plug screws for use in various applications, particularly in firearms and barrel maintenance. This guide outlines essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any visible damage or defects before use.
- Use the product only for its intended purpose.
- Store the product in a cool, dry place away from direct sunlight.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- When handling plug screws, ensure that you are wearing appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Be cautious of sharp edges when using tools to grind or cut screws.
- Avoid inhaling any dust generated during the grinding process.
- Do not use the screws in applications that exceed their specified load capacity.
- Ensure that the screws are securely fastened to prevent accidental dislodgment during use.
- If you experience any discomfort or adverse reactions while using the product, discontinue use immediately and seek medical advice.

Instructions for Installation and Usage

1. Selecting the Right Screw:

- Choose the appropriate size and type of plug screw for your application based on the specifications provided.
- Use the included chromeplated, flat jaw tweezers to handle and select screws easily.

2. Preparation:

- Ensure that the surface where the screw will be installed is clean and free from debris.
- If necessary, grind the screw to the desired length using the Checker/Shortener Jig provided in the kit.

3. Installing the Screw:

- Insert the screw into the predrilled hole.
- Use a suitable tool to tighten the screw securely, ensuring it is flush with the surface.
- For positive stop screws, ensure the rounded top blends well with the barrel contour.

4. Finishing Touches:

- If desired, the installed screw can be blued or polished to match the surrounding surface.
- Check the installation to ensure there are no gaps or loose fittings.

Disposal Instructions

- Dispose of any unused or damaged screws in accordance with local regulations.
- Do not dispose of screws in regular household waste if they can pose a hazard.
- Consider recycling options for metal components where available.

Contact Information for Further Support

For any questions or concerns regarding the safety or usage of this product, please refer to the manufacturer's contact details provided on the packaging or product documentation.

By following these safety instructions, you can ensure a safe and effective experience with the Plug Screw Kit Brownells Positive Stop Refill. Thank you for your attention to safety and for choosing our product.
